

Synthetic leather key case

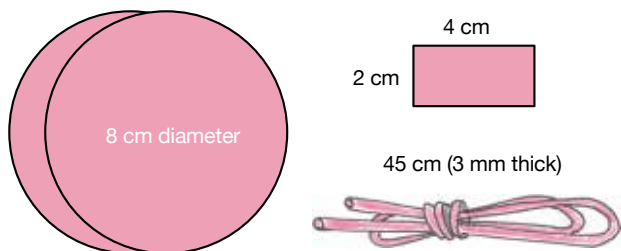

1. If there are no instructions to use a specific stitch, use the straight stitch.
2. Presser foot "J" (straight stitch) and the Non-Stick Foot F007N (sold separately) will be used.

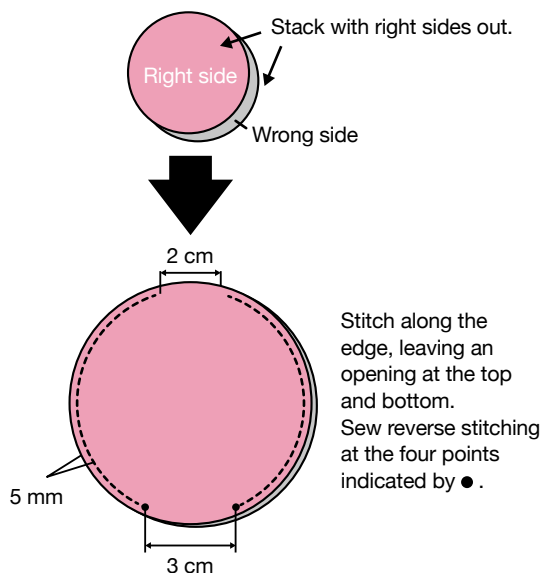

Materials

- Synthetic leather (circle of 8 cm in diameter) – 2 pieces
- Cord (3 mm thick, 45 cm long)
- Scrap of material for a tag* (2 cm × 4 cm)

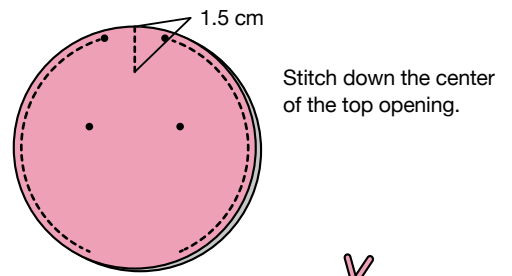

* Any scrap of material, for example, the same fabric or felt, can be used.

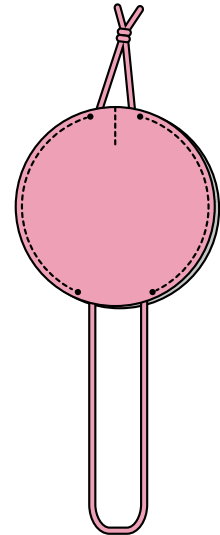

- 1 With their right sides out, stack the round pieces of synthetic leather, and then stitch them together. If the material does not feed well, use the separately sold Roller Foot F066 or Non-Stick Foot F007N.

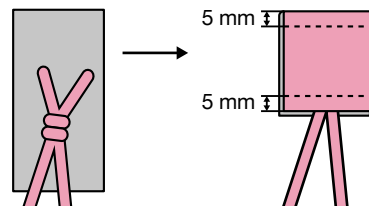

- 2 Sew down the center of the top opening.

- 3 Pass the cord through, and then tie the ends together.

- 4 Sandwich the knot in the excess scrap material and stitch.

- 5 Attach the keys.

Pull the cord to store the keys inside the case.
