Definitions of Notes

We use the following symbols and conventions throughout this User's Guide:

 WARNING	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
 CAUTION	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.
IMPORTANT	IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.
NOTE	NOTE specifies the operating environment, conditions for installation, or special conditions of use.
	Tips icons indicate helpful hints and supplementary information.
	Electrical Hazard icons alert you to possible electrical shock.
	Fire Hazard icons alert you to the possibility of a fire.
	Hot Surface icons warn you not to touch hot machine parts.
	Prohibition icons indicate actions you must not perform.
Bold	Bold style identifies buttons on the machine's control panel or computer screen.
<i>Italics</i>	Italicised style emphasises an important point or refers you to a related topic.
Courier New	Courier New font identifies messages shown on the machine's LCD.

Important Notes

- Check support.brother.com/downloads for Brother driver and software updates.
- To keep your machine performance up to date, check support.brother.com/downloads for the latest firmware upgrade. Otherwise, some of your machine's functions may not be available.
- Do not use this product outside the country of purchase as it may violate the wireless telecommunication and power regulations of that country.
- Not all models are available in all countries.
- Before giving your machine to anyone else, replacing it, or disposing of it, we strongly recommend resetting it to its factory settings to remove all personal information.
- Windows 10 in this document represents Windows 10 Home, Windows 10 Pro, Windows 10 Education, and Windows 10 Enterprise.
- Windows 11 in this document represents Windows 11 Home, Windows 11 Pro, Windows 11 Education, and Windows 11 Enterprise.
- For macOS v15 Users:
This machine supports macOS v15.
For machine setup and software installation instructions, see the *Quick Setup Guide* included in the carton.
All features in macOS v13 and macOS v14 are available in the macOS v15 environment and work in a similar way.
- In this User's Guide, the LCD messages of the MFC-L8730CDW/MFC-L8970CDW are used unless otherwise specified.
- In this User's Guide, the illustrations of the MFC-L8730CDW/MFC-L8970CDW are used unless otherwise specified.
- The screens or images in this User's Guide are for illustration purposes only and may differ from those of the actual products.
- The screens in this manual may differ from the screens on your computer depending on your operating system.
- The contents of this document and the specifications of this product are subject to change without notice.
- Not all features are available in countries subject to applicable export restrictions.

Before Using Your Machine

Before attempting any printing operation, confirm the following:

- Make sure you have installed the correct software and drivers for your machine.
- For USB or network cable users: Make sure the interface cable is physically secure.

Simultaneous printing, scanning, and faxing

Your machine can print from your computer while sending or receiving a fax into memory or while scanning a document into the computer. Fax sending will not be stopped during printing from your computer. However, when the machine is copying or receiving a fax on paper, it pauses the printing operation, and then continues printing when copying or fax receiving has finished.

DCP models do not support the fax feature.

Firewall (Windows)

If your computer is protected by a firewall and you are unable to network print, network scan, or PC-FAX, you may need to configure the firewall settings. If you are using the Windows Firewall and you installed the drivers using the steps in the installer, the necessary firewall settings have been already set. If you are using any other personal firewall software, see the User's Guide for your software or contact the software manufacturer.

DCP-L8630CDW/MFC-L8730CDW

You can select from two types of screens to set as the Main Home screen: Home screens and Shortcuts screens. When a Home screen is displayed, swipe left or right or press ◀ or ▶ to display the other Home screens.

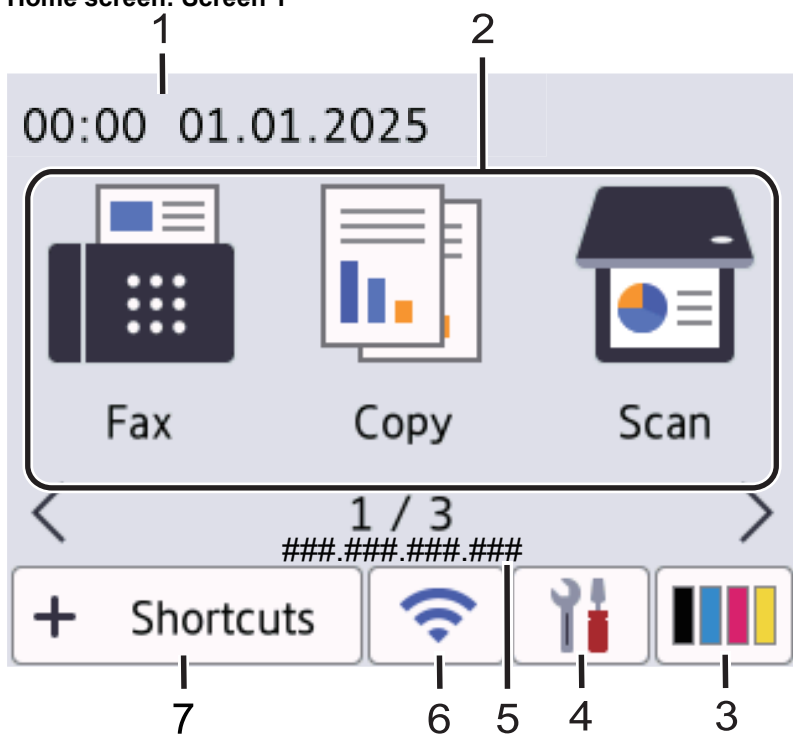

The Main Home screen displays the machine's status when the machine is idle. When displayed, this screen indicates that your machine is ready for the next command.

If Active Directory Authentication or LDAP Authentication is enabled, the machine's control panel is locked.

The available features vary depending on your model.

From the Home screens, you can access the various settings.

Home screen: Screen 1

Home screen: Screen 2

Home screen: Screen 3

Shortcuts screen

Create Shortcuts for frequently used operations, such as sending a fax, copying, scanning, and using Web Connect.

Eight Shortcuts tabs are available with six Shortcuts on each Shortcuts tab. A total of 48 Shortcuts are available.

1. Date & Time

Displays the date and time set on the machine.

2. Function Icons

-  **[Fax]** (For MFC Models)
Press to access Fax mode.
-  **[Copy]**
Press to access Copy mode.
-  **[Scan]**
Press to access Scan mode.
-  **[Secure Print]**
Press to access the [Secure Print] option.
-  **[Web]**
Press to connect your machine to an Internet service.
-  **[Apps]**
Press to connect your machine to the Brother Apps service.
-  **[USB]**
Press to access the USB menu and select [Scan to USB] or [Direct Print] options.
-  **[2 in 1 ID Copy]**
Press to access the 2 in 1 ID Copy option.

3. (Toner)

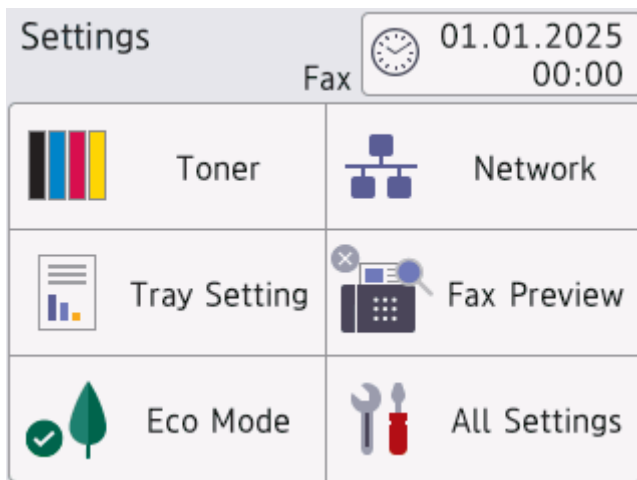

Displays the remaining toner life. Press to access the [Toner] menu.

4. (Settings)

Press to access the [Settings] menu.

If the Setting Lock function has been turned on, a lock  icon appears on the LCD. You must unlock the machine to change the settings.

-  **Toner**
 - Displays the remaining toner life.
 - Press to access the [Toner] menu.
-  **Network**
 - Press to set up a network connection.
 - A four level indicator on the screen displays the current wireless signal strength if you are using a wireless connection.
-  **Fax Preview** (For MFC Models)
Press to access the [Fax Preview] menu.
-  **Wi-Fi Direct** (For DCP Models)
Press to access the [Wi-Fi Direct] menu.
-  **Tray Setting**
Press to access the [Tray Setting] menu.
-  **Eco Mode**
Press to access the [Eco Mode] menu.
-  **All Settings**
Press to access all machine settings.
-  **Date & Time**
 - Displays the date and time set on the machine.
 - Press to access the [Date & Time] menu.

5. IP Address

If the IP Address setting in the Display Information menu has been turned on, your machine's IP Address appears on the Home screens.

6.  **(Wireless Status)**

Press to configure wireless settings.

If you are using a wireless connection, a four-level indicator displays the current wireless signal strength.

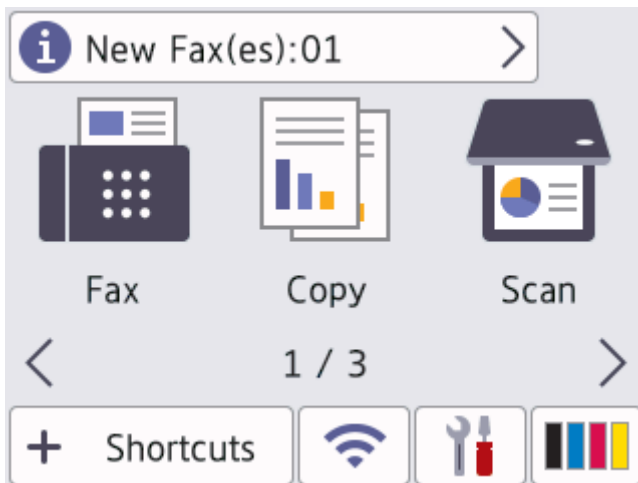

7.  **[Shortcuts]**

Press to access the [Shortcuts] screen.

8.  **(Home screen)**

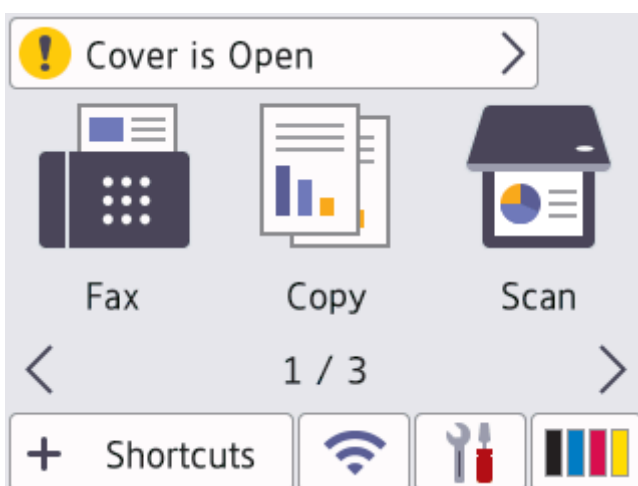

Press to access the Home screens.

- **New Fax (For MFC Models)**

When [Fax Preview] is set to [On], the number of new faxes you received into the memory appears at the top of the screen.

- **Warning Icon**

The warning icon  appears when there is an error or maintenance message. Press the message area to view it, and then press  to return to the Main Home screen.

MFC-L8970CDW/MFC-EX570

Your machine has eight tabbed screens (referred to as Home screens). Each Home screen can hold up to eight icons which can be used for functions, machine settings and shortcuts. A total of 64 icons can be placed on the Home screens as needed.

The Main Home screen can be selected from the Home screens.

Use the [Admin Settings] menu to rename the name of the tabs and rearrange the icons.

1. **Date & Time**

Displays the date and time set on the machine.

This area is also used to display error or maintenance messages.

2. **(Wired LAN Status)**

Press to configure the Wired LAN settings.

The icon displays the current wired network status.

Wired LAN Disabled
(Grey)

Wired LAN Enabled
(Blue)

No cable connection

3. **(Wireless Status)**

Press to configure the wireless settings.

If you are using a wireless connection, a four-level indicator displays the current wireless signal strength.

0

Max

Wireless LAN Disabled

4. **(Toner)**

Displays the remaining toner life. Press to access the [Toner] menu.

5. (Admin Settings)

Press to access the [Admin Settings] menu.

If required, enter the password you use to manage this machine, and then press [OK].

6. IP Address

If the IP Address setting in the Display Information menu has been turned on, your machine's IP Address appears on the Home screens.

7. Function Icons, Setting Icons, and Shortcut Icons

The following descriptions explain basic icons and features. The available features vary depending on your model.

-  [All Settings]
Press to access the machine's settings menu.
-  [Fax]
Press to access Fax mode.
-  [Copy]
Press to access Copy mode.
-  [Scan]
Press to access Scan mode.
-  [Secure Print]
Press to access the [Secure Print] option.
-  [USB]
Press to access the USB menu and select [Scan to USB] or [Direct Print] options.
-  [Web]
Press to connect your machine to an Internet service.
-  [Apps]
Press to connect your machine to the Brother Apps service.
-  [2 in 1 ID Copy]
Press to access the 2 in 1 ID Copy option.
-  [Eco Mode]
Press to access the [Eco Mode] menu.
-  (Shortcuts)
Press to create Shortcuts for frequently-used operations, such as sending a fax, copying, scanning, and using Web Connect.

8. Tabs Scroll Buttons

Press to switch the Home screens.

9. Home Tabs

Press to display the screen for the Home.

- **New Fax**

When [Fax Preview] is set to [On], the number of new faxes you received into the memory appears at the top of the screen.

- **Warning icon**

The warning icon  appears when there is an error or maintenance message. Press the message area to view it, and then press  to return to the Main Home screen.

Access Brother Utilities (Windows)

Brother Utilities is an application launcher that offers convenient access to all Brother applications installed on your computer.

1. Do one of the following:
 - (Windows 11)
Click  > **All apps** > **Brother** > **Brother Utilities**.
 - (Windows 10)
Click  > **Brother** > **Brother Utilities**.
2. Select your machine.

3. Choose the option you want.

Related Information

- [Introduction to Your Machine](#)
 - [Uninstall the Software and Drivers \(Windows\)](#)

Uninstall the Software and Drivers (Windows)

1. Do one of the following:
 - Windows 11
Click  > **All apps** > **Brother** > **Brother Utilities**.
 - Windows 10
Click  > **Brother** > **Brother Utilities**.
2. Select your model from the drop-down list (if it is not already selected).
3. Click **Tools** in the left navigation bar.
 - If the **Software Update Notification** icon is visible, select it, and then click **Check now** > **Check for Software Updates** > **Update**. Follow the on-screen instructions.
 - If the **Software Update Notification** icon is not visible, go to the next step.
4. Click **Uninstall** in the **Tools** section of **Brother Utilities**.
Follow the instructions in the dialog box to uninstall the software and drivers.

Related Information

Access Brother iPrint&Scan (Windows/Mac)

Use Brother iPrint&Scan for Windows and Mac to print and scan from your computer.

- This function is not available in countries subject to applicable export regulations.
 - **To download the latest version:**
 - For Windows:
Go to your model's **Downloads** page at support.brother.com/downloads, and then download and install Brother iPrint&Scan.
 - For Mac:
Download and install Brother iPrint&Scan from the Apple App Store.
- If prompted, install the driver and software necessary to use your machine. Download your machine's latest driver and software from your model's **Downloads** page at support.brother.com/downloads.

1. Start Brother iPrint&Scan.

- Windows

Double-click the  (Brother iPrint&Scan) icon.

- Mac

In the **Finder** menu bar, click **Go > Applications**, and then double-click the iPrint&Scan icon.

The Brother iPrint&Scan screen appears.

The actual screen may differ depending on the version of the application.

Load Paper in the Paper Tray

- If, when the Check Paper setting is set to On and you pull the paper tray out of the machine, a message appears on the LCD asking if you want to change the paper size and paper type, change these settings, if needed, following the LCD instructions.
- When you load a different size and type of paper in the tray, you must also change the Paper Size and Paper Type settings on the machine, or on your computer.

1. Pull the paper tray completely out of the machine.

2. Press the green levers to slide the paper guides to fit the paper.

-  For Legal or Folio size paper, press the release lever (1) in the back of the tray, and then pull out the back of the paper tray. (Legal and Folio size paper are not available in some regions.)

3. Fan the stack of paper well.
4. Load paper in the paper tray with the printing surface *face down*.

-  When you use letterhead or preprinted paper, load the paper in the correct orientation. See *Related Information: Change Machine Settings to Print on Letterhead or Preprinted Paper Using the Paper Tray*.

-
5. Make sure the paper is below the maximum paper mark (▼▼▼).

Overfilling the paper tray will cause paper jams.

6. Slowly push the paper tray completely into the machine.
7. Lift the support flap to prevent paper from sliding off the output tray.

Change Machine Settings to Print on Letterhead or Preprinted Paper Using the Paper Tray

When you use letterhead or preprinted paper for 2-sided printing, change the machine's settings.

- DO NOT load different sizes and types of paper in the paper tray at the same time. Doing this may cause the paper to jam or misfeed.
- If the print position is misaligned with the letterhead or preprinted objects, the print position is adjustable using the Print Position setting for the paper tray.
- Some preprinted paper may cause print stains, depending on the printing method and ink type.

Orientation

	<p>For 1-sided printing</p> <ul style="list-style-type: none">• face down• top edge towards the front of the paper tray
	<p>For automatic 2-sided printing (long edge binding)</p> <ul style="list-style-type: none">• face up• bottom edge towards the front of the paper tray

1. Press  [Settings] > [All Settings] > [Printer] > [2-sided] > [Single Image] > [2-sided Feed].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press .

Related Information

- [Load Paper in the Paper Tray](#)

Load Paper in the Multi-purpose Tray (MP Tray)

When you load a different size and type of paper in the tray, you must also change the Paper Size and Paper Type settings on the machine, or on your computer.

- Plain Paper
 - Letterhead
 - Coloured Paper
 - Thin Paper
 - Thick Paper
 - Recycled Paper
 - Bond Paper
 - Glossy Paper
1. Lift the support flap to prevent paper from sliding off the face down output tray.

2. Open the MP tray and lower it gently.

3. Extend the MP tray support.

4. Slide the MP tray paper guides to fit the width of the paper you are using.

5. Load paper with the printing surface *face up* in the MP tray.

- Make sure the paper is below the maximum paper mark (1).
- When using glossy paper, load only one sheet at a time in the MP tray to avoid a paper jam.
- When you use letterhead or preprinted paper, load the paper in the correct orientation. See *Related Information: Change Machine Settings to Print on Letterhead or Preprinted Paper Using the MP Tray.*

Load and Print Labels Using the MP Tray

When you print on labels, open the back cover (face up output tray) and use the MP tray.

When you load a different size and type of paper in the tray, you must also change the Paper Size and Paper Type settings on the machine, or on your computer.

1. Open the machine's back cover (the face up output tray).

2. On the front of the machine, open the MP tray and lower it gently.

3. Extend the MP tray support.

-
- Slide the MP tray paper guides to fit the width of the labels you are using.

- Load labels with the printing surface *face up* in the MP tray.

Make sure the labels are below the maximum paper mark (1).

- Change your print preferences in the Print screen.
- Send your print job to the machine.
- When finished, close the back cover (the face up output tray) until it locks in the closed position.

Change the Paper Size and Paper Type

When you change the size and type of paper you load in the tray, you must also change the Paper Size and Paper Type settings on the LCD.

1. Press  [Settings] > [All Settings] > [General Setup] > [Tray Setting] > [Paper Type].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press the option you want.
3. Swipe up or down or press ▲ or ▼ to display the paper type options, and then press the option you want.
4. Press .
5. Press [Paper Size].
6. Press the option you want.
7. Swipe up or down or press ▲ or ▼ to display the paper size options, and then press the option you want.
8. Press .

Related Information

- [Paper Settings](#)

Select the Paper Tray For Printing

Change the machine's default paper tray for printing copies, received faxes, and print jobs from your computer.

DCP models do not support the fax feature.

1. Press  [Settings] > [All Settings] > [General Setup] > [Tray Setting].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Swipe up or down or press ▲ or ▼ to display the [Copy], [Fax], or [Print] option, and then press the option you want.
3. Swipe up or down or press ▲ or ▼ to display the option you want, and then press it. For example, when you select the [MP>T1] option, the machine pulls paper from the MP tray until it is empty, and then from Tray 1.
4. Press .

- When you make a copy using the ADF and give priority to multiple trays, the machine looks for the tray with the most suitable paper and pulls paper from that tray.
- When you make a copy using the scanner glass, your document is copied from the higher priority tray even if more suitable paper is in another paper tray.
- (For models with facsimile function) Use the following sizes of paper for printing faxes: Letter, A4, Legal, Folio, Mexico Legal, or India Legal. When an appropriate size is not in any of the trays, the machine stores received faxes and [Size Mismatch] appears on the touchscreen.
- (For models with facsimile function) If the tray is out of paper and received faxes are in the machine's memory, [No Paper] appears on the touchscreen. Load paper in the empty tray.

Load Documents

- [Load Documents in the Automatic Document Feeder \(ADF\)](#)
- [Load Documents on the Scanner Glass](#)

Load Documents in the Automatic Document Feeder (ADF)

Use the ADF when copying or scanning multi page, standard-sized documents.

- The ADF can hold the following sheets and feed each sheet individually:
 - Up to 80 sheets
- Use standard 80 g/m² paper.
- Make sure documents with correction fluid or written in ink are completely dry.

IMPORTANT

- DO NOT leave thick documents on the scanner glass. If you do this, the ADF may jam.
- DO NOT use paper that is curled, wrinkled, folded, ripped, stapled, paper-clipped, glued together, or taped.
- DO NOT use cardboard, newspaper, or fabric.
- To avoid damaging your machine while using the ADF, DO NOT pull on the document while it is feeding.

Supported Document Sizes

Length:	148 mm to 355.6 mm
Width:	105 mm to 215.9 mm
Weight:	60 to 105 g/m ²

1. Unfold the ADF document output support flap.

2. Fan the pages well.
3. Stagger the pages of your document and load it into the ADF *face up* and *top edge first*, as shown in the illustration.

4. Adjust the paper guides to fit the width of your document.

Unscannable and Unprintable Areas

The measurements in the table below show the maximum unscannable and unprintable areas from the edges of the most commonly-used paper sizes. These measurements may vary depending on the paper size or settings in the application you are using.

Do not attempt to scan, copy, or print in these areas. Any content included in such areas will not be reflected in the output.

Usage	Document Size	Top (1) Bottom (3)	Left (2) Right (4)
Fax (Sending)	Letter, Legal	2.9 mm	3.9 mm
	A4	2.9 mm	(ADF) 1.0 mm (Scanner Glass) 3.0 mm
Copy ¹	Letter, Legal	4.0 mm	4.0 mm
	A4	4.0 mm	3.0 mm
Scan	Letter	3.0 mm ²	3.0 mm ²
	A4	3.0 mm ²	3.0 mm ²
	Legal	3.0 mm ²	3.0 mm ²
Print	Letter, Legal	4.2 mm	4.2 mm
	A4	4.2 mm	4.2 mm

¹ A 1 in 1 copy and 100% document size copy

² The number shown is the default value. This number is adjustable to 0 mm. If the number is set to 0 mm, a black shadow may appear around the edges on the scanned image.

- [Paper Handling](#)

Using Special Paper

Always test paper samples before purchasing them to ensure desirable performance.

- DO NOT use inkjet paper; it may cause a paper jam or damage your machine.
- If you use bond paper, paper with a rough surface, or paper that is wrinkled or creased, the paper may exhibit degraded performance.

Store paper in its original packaging and keep it sealed. Keep the paper flat and away from moisture, direct sunlight, and heat.

IMPORTANT

Some types of paper may not perform well or may cause damage to your machine.

DO NOT use paper:

- that is highly textured
- that is extremely smooth or shiny
- that is curled or warped
- that is coated or has a chemical finish
- that is damaged, creased, or folded
- that exceeds the recommended weight specification in this guide
- with tabs and staples
- with letterhead using low temperature dyes or thermography
- that is multipart or carbonless
- that is designed for inkjet printing
- that has an adhesive substance applied to the surface

If you use any of the types of paper listed above, they may damage your machine. This damage is not covered under any Brother warranty or service agreement.

Change the Default Print Settings (Windows)

When you change an application's print settings, the changes apply only to documents printed with that application. To change print settings for all Windows applications, you must configure the printer driver properties.

1. Hold down the  key and press the  key on the computer's keyboard to launch **Run**.
2. Type "**control printers**" in the **Open:** field and click **OK**.

The **Devices and Printers** window appears.

If the **Devices and Printers** window does not appear, click **Devices > More devices and printer settings**.

3. Right-click your model's icon, and then select **Printer properties**. (If the printer driver options appear, select your printer driver.)

The printer properties dialog box appears.

4. Click the **General** tab, and then click the **Printing Preferences...** or **Preferences...** button.

The printer driver dialog box appears.

- To configure the tray settings, click the **Device Settings** tab (available for certain models).
- To change the printer port, click the **Ports** tab.

5. Select the print settings you want to use as the default for all of your Windows programs.
6. Click **OK**.
7. Close the printer properties dialog box.

Related Information

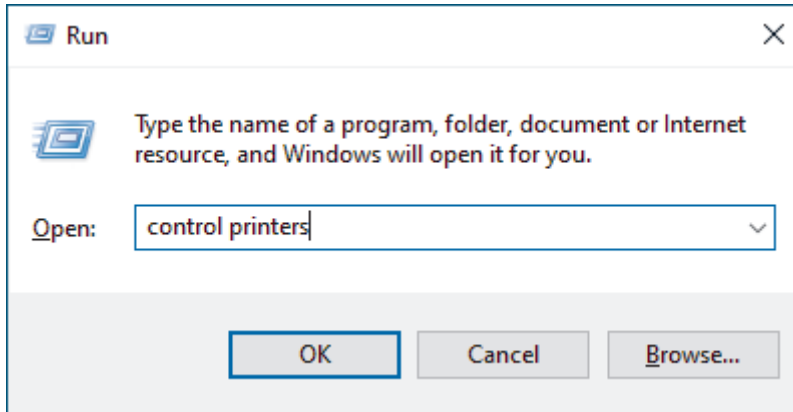

- [Print from Your Computer \(Windows\)](#)
 - [Configure the Optional Tray Settings \(Windows\)](#)

Configure the Optional Tray Settings (Windows)

Access your machine's Properties to auto-detect your machine's Optional Tray and check the machine's serial number.

The printer driver automatically detects the Optional Tray during the driver installation. If you added the Optional Tray after the driver installation, follow these steps:

1. Hold down the  key and press the  key on the computer's keyboard to launch **Run**.
2. Type "**control printers**" in the **Open:** field and click **OK**.

The **Devices and Printers** window appears.

If the **Devices and Printers** window does not appear, click **Devices > More devices and printer settings**.

3. Right-click your model's icon, and then select **Printer properties**. (If the printer driver options appear, select your printer driver.)
The printer properties dialog box appears.
4. Click the **Device Settings** tab.
5. Click the **Auto Detect** button.
The Optional Tray and the machine's serial number are automatically detected.
6. Click the **Apply** button.
7. Close the printer properties dialog box.

The **Auto Detect** function is not available under the following machine conditions:

- The machine is turned off.
- The machine is shared via a Print Server.
- The machine and your computer are not connected.

>> [Basic Tab](#)

>> [Advanced Tab](#)

Basic Tab

The screenshot shows the 'Printing Preferences' dialog box for a Brother printer. The 'Basic' tab is selected, showing various settings for paper size, orientation, copies, media type, print quality, and document type. On the left, there is a preview of a document with a magnifying glass over a portion of it. Below the preview, the current settings are listed: Paper Size: A4 (210 x 297 mm), Media Type: Plain Paper, Copies: 1, Print Quality: Fine (2400 dpi class), 2-sided / Booklet: 2-sided, Scaling: Off, Watermark: Off, and Secure Print: Off. At the bottom of the dialog, there are buttons for 'Add Profile(J)...', 'Support...', 'OK', 'Cancel', and 'Help'.

Setting	Value
Paper Size	A4
Orientation	<input checked="" type="radio"/> Portrait <input type="radio"/> Landscape
Copies	1 <input type="checkbox"/> Collate
Media Type	Plain Paper
Print Quality	Fine (2400 dpi class)
Colour / Mono	Auto
Document Type	Document (Mixed)
Multiple Page	Normal
Page Order	Right, then Down
Border Line	
2-sided / Booklet	2-sided
Paper Source	Auto Select
First Page	Auto Select
Other Pages	Same as First Page

1. Paper Size

Select the paper size you want to use. You can either choose from standard paper sizes or create a custom paper size.

2. Orientation

Select the orientation (portrait or landscape) of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

3. Copies

Type the number of copies (1-999) that you want to print in this field.

Collate

Select this option to print sets of multi-page documents in the original page order. When this option is selected, one complete copy of your document will print, and then reprint according to the number of copies you choose. If this option is not selected, then each page will print according to the number of copies chosen before the next page of the document is printed.

4. Media Type

Select the media type you want to use. To achieve the best print results, the machine automatically adjusts its print settings according to the selected media type.

5. Print Quality

Select the print quality you want. Because print quality and speed are related, the higher the quality, the longer it will take to print the document.

6. Colour / Mono

Select the Colour/Mono settings to use.

NOTE

- The machine's colour sensor is very sensitive and may perceive faded black text or an off-white background as colour. If you know that your document is black and white and you want to conserve colour toner, select the **Mono** mode.
- If either the Cyan, Magenta, or Yellow toner reaches the end of its life while printing a colour document, the print job cannot be completed. Cancel your print job and select to start the print job again in the **Mono** mode, as long as the Black toner is available.

7. Document Type

Select the type of document you want to print.

Settings button

Specify advanced settings, such as colour mode.

Colour Mode

Select the colour mode to suit your preference.

Import

To adjust the print configuration of a particular image, click **Settings**. When you have finished adjusting the image parameters, such as brightness and contrast, import those settings as a print configuration file. Use the **Export** option to create a print configuration file from the current settings.

Export

To adjust the print configuration of a particular image, click **Settings**. When you have finished adjusting the image parameters, such as brightness and contrast, export those settings as a print configuration file. Use the **Import** option to load a previously exported configuration file.

Improve Grey Colour

Select this option to improve the image quality of shaded areas.

Enhance Black Printing

If a black graphic does not print correctly, select this setting.

Improve Pattern Printing

Select this option to improve the pattern printing if printed fills and patterns are different from the fills and patterns you see on your computer screen.

8. Multiple Page

Select this option to print multiple pages on a single sheet of paper, or print one page of your document on multiple sheets.

Page Order

Select the page order when printing multiple pages on a single sheet of paper.

Border Line

Select the type of border to use when printing multiple pages on a single sheet of paper.

9. 2-sided / Booklet (available for certain models)

Select this option to print on both sides of the paper, or print a document in booklet format using 2-sided printing.

2-sided Settings button

Click this button to select the type of 2-sided binding. Four types of 2-sided bindings are available for each orientation.

10. Paper Source

Select the paper source setting according to your print conditions or purpose.

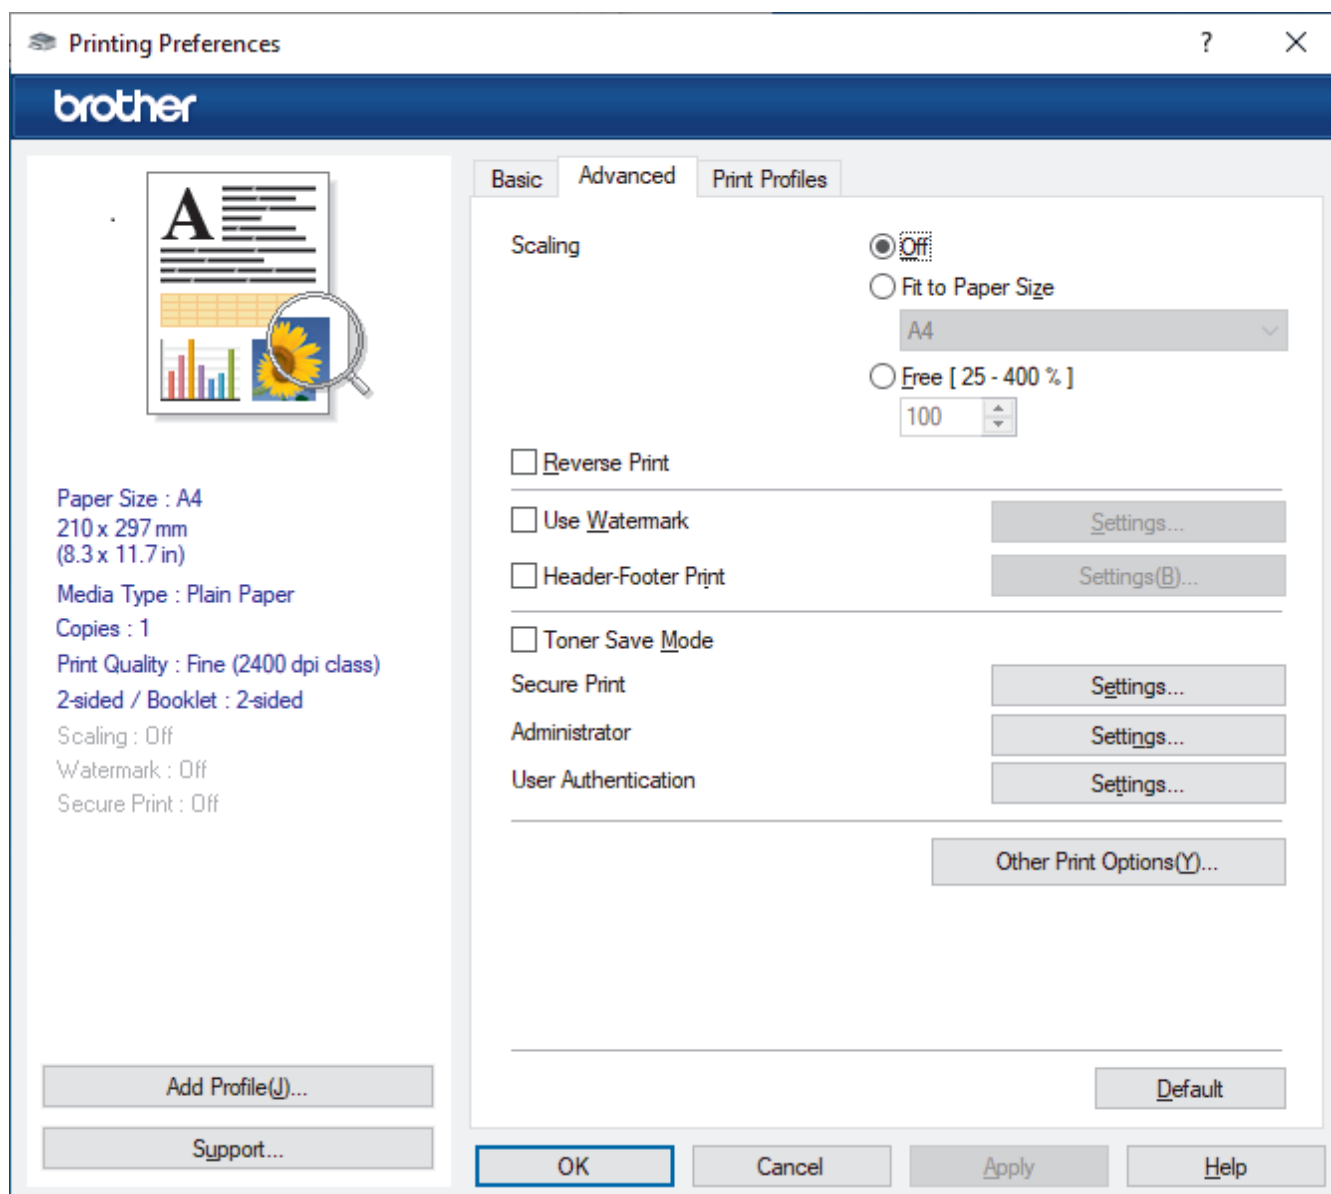

First Page

Select the paper source to use for printing the first page.

Other Pages

Select the paper source to use for printing the second and subsequent pages.

Advanced Tab

1. Scaling

Select these options to enlarge or reduce the size of the pages in your document.

Fit to Paper Size

Select this option to enlarge or reduce the document pages to fit a specified paper size. When you select this option, select the paper size you want from the drop-down list.

Free [25 - 400 %]

Select this option to enlarge or reduce the document pages manually. When you select this option, type a value into the field.

2. Reverse Print

Select this option to rotate the printed image 180 degrees.

3. Use Watermark

Select this option to print a logo or text on your document as a watermark. Select one of the preset watermarks, add a new watermark, or use an image file you have created.

4. Header-Footer Print

Select this option to print the date, time, and login user name on the document.

5. Toner Save Mode

Select this feature to use less toner to print documents; printouts appear lighter, but are still legible.

6. Secure Print

This feature ensures that confidential or sensitive documents are not printed out until you enter a password on the machine's control panel.

7. Administrator

This feature allows you to change the administrator password and restrict various printing functions.

8. User Authentication

This feature allows you to confirm the restrictions for each user.

9. Other Print Options button

Sleep Time

Select this option to set the machine to enter sleep mode immediately after printing.

Macro/Stream (available for certain models)

Select this feature to print an electronic form (macro/stream), which you have stored in your machine's memory, as an overlay on the print job.

Improve Print Output

Select this option to reduce the amount of paper curling and improve the toner fixing.

Edge Emphasis

Select this option to make the text appear sharper.

Skip Blank Page

Select this option to allow the printer driver to automatically detect blank pages and exclude them from printing.

TrueType Mode

Mode

Print a Document Using the BR-Script3 Printer Driver (PostScript® 3™ Language Emulation) (Windows)

The BR-Script3 printer driver lets you print PostScript® data more clearly.

Go to your model's **Downloads** page at support.brother.com/downloads to install the PS driver (BR-Script3 printer driver).

1. Select the print command in your application.
2. Select your model with **BR-Script3** in the name, and then click the printer's properties or preferences button.

The printer driver window appears.

3. Click the **Layout**, **Paper/Quality**, or **Secure Print** tab to change basic print settings. (available for certain models)

Click the **Layout** or **Paper/Quality** tab, and then click the **Advanced...** button to change advanced print settings. Click **OK**.

4. Click **OK**.
5. Complete your print operation.

Load and Print Envelopes Using the MP Tray

Before loading, press the corners and sides of the envelopes to make them as flat as possible.

When you load a different size and type of paper in the tray, you must also change the Paper Size and Paper Type settings on the machine, or on your computer.

1. Open the machine's back cover (the face up output tray).

2. On the front of the machine, open the MP tray and lower it gently.

3. Extend the MP tray support.

4. Slide the MP tray paper guides to fit the width of the envelopes that you are using.

5. Load envelopes with the printing surface *face up* in the MP tray.

Load the envelopes in the MP tray with the printing surface face up. Make sure the envelopes are below the maximum paper mark (1).

6. Change your print preferences in the Print dialog box.

Settings	Options for Envelopes
Paper Size	Com-10 DL C5 Monarch
Media Type	Envelopes Env. Thick Env. Thin

7. Send your print job to the machine.

8. When finished, close the back cover (the face up output tray) until it locks in the closed position.

Print an Email Attachment

You can print files by emailing them to your Brother machine.

- You can attach up to 10 documents, 20 MB in total, to an email.
- This feature supports the following formats:
 - Document files: PDF, TXT, and Microsoft Office files
 - Image files: JPEG, BMP, GIF, PNG, and TIFF
- The machine prints both the email content and attachments by default. To print only email attachments, change the settings as necessary.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Online Functions > Online Functions Settings**.

- If the left navigation bar is not visible, start navigating from ☰.
- If this function is locked, contact your network administrator for access.

3. Click the **I accept the terms and conditions** button and follow the on-screen instructions.
4. On your computer, click **General Settings**.
The **Email Print: General Settings** screen appears.
5. Click the **Enable** button.
The machine prints the instruction sheet.
6. Send your email to the email address included on the sheet. The machine prints the email attachments.

- To change the settings, including email address and printer settings, click the **Online Functions Settings Page** button.
- You can also configure the settings from your machine. Press [Apps] > [Online Functions], and then follow the on-screen instructions.

Secure Print Using a USB Flash Drive

Related Models: MFC-L8970CDW/MFC-EX570

USB Storage Print allows you to save secure print data to the USB flash drive and print them later by entering a password on the machine's control panel.

NOTE

USB flash drive requirements:

- Storage Size: 8 GB or more
- Format: FAT32/exFAT

USB flash drive recommendation:

Storage Size: 16 GB or more

- Data stored on a USB flash drive is encrypted, but this may not protect it from unauthorised access in all circumstances. Make sure you securely manage and store your data and USB flash drive.
- Data on a USB flash drive can only be read on the machine whose data it stores. You cannot read the data on another machine, device, or computer.
- When you no longer need the USB flash drive to store the data from your machine and want to use it for other purposes, delete all stored data, and format the USB flash drive on your computer. To format or clean the USB flash drive, refer to its user manual for instructions.

1. Connect your USB flash drive to the USB port (Rear).

2. Press .
3. On the machine's control panel, press  [All Settings] > [Printer] > [Job Save Location].
4. Press [USB flash drive (Rear port)].
A message appears on the LCD to initialise the USB flash drive.

NOTE

When you change the location where you save print jobs, all the stored job, Macro, Stream and Font data in the machine's memory will be deleted.

5. Press and hold [OK] for two seconds to initialise.
The machine will restart to activate the USB Storage Print feature.

NOTE

When the machine restarts to activate the USB Storage Print feature, the Macro, Stream and Font data will be deleted from the USB flash drive.

6. In the printer driver, complete the settings for the Secure Print option and execute the print command in your application.
7. On the machine's control panel, swipe left or right or press ◀ or ▶ to display the [Secure Print] option, and then press it.
8. Swipe up or down or press ▲ or ▼ to display user names, and then press your user name.
9. Enter your four-digit password, and then press [OK].
10. Swipe up or down or press ▲ or ▼ to display the print job, and then press it.
11. Enter the number of copies you want, and then press [OK].
12. Press [Start].

The machine prints the data and deletes the print job from the USB flash drive.

IMPORTANT

DO NOT remove the USB flash drive from the USB port (Rear) until the machine has finished printing.

Print Data Directly from a USB Flash Drive or Digital Camera Supporting Mass Storage

- Make sure your digital camera is turned on.
- Supported file types are PDF, JPEG, TIFF, and PRN.
- Your digital camera must be switched from PictBridge mode to Mass Storage mode.
- USB flash drive requirements:
 - Class: USB Mass Storage Class
 - Formats: FAT12/FAT16/FAT32/exFAT

IMPORTANT

To prevent damage to your machine, DO NOT connect any device other than a digital camera or USB flash drive to the USB direct interface.

USB Port Location (Front View)

USB Port Location (Rear View) (MFC-L8970CDW/MFC-EX570)

1. Connect your USB flash drive or digital camera to the USB direct interface. The touchscreen will automatically display the USB menu to confirm that the USB flash drive or digital camera is correctly connected.

- If an error occurs, the USB menu will not appear on the touchscreen.
- When the machine is in Deep Sleep mode, the touchscreen does not display any information even if you connect a USB flash drive to the USB direct interface. Press the touchscreen to wake up the machine.
- If your machine's Secure Function Lock is On, you may not be able to print from a USB flash drive or digital camera.
- (MFC-L8970CDW/MFC-EX570) If the machine prompts you to choose the USB port, select it on the touchscreen.

2. Press [Direct Print].

3. Swipe up or down, or press ▲ or ▼ to display the file you want to print, and then select the file.

To print an index of the files stored on the USB flash drive or digital camera, press  [Index Print] on the touchscreen. Press [Mono Start] or [Colour Start] to print the data.

4. Do one of the following:

- To change the settings, press  [Print Settings]. Go to the next step.
- If you want to use the default settings, enter the number of copies, and then press [Mono Start] or [Colour Start].

5. Select the print settings you want to change:

- [Print Quality]
- [Select Tray]
- [Paper Type]
- [Paper Size]
- [Multiple Page]
- [Orientation]
- [2-sided]
- [Collate]
- [PDF Print Options]
- [PDF Fit to Page]

Depending on the file type, some of these settings may not appear.

6. Press [OK].

7. Enter the number of copies you want.

8. Press [Mono Start] or [Colour Start] to print the data.

9. Press .

IMPORTANT

DO NOT remove the USB flash drive or digital camera from the USB direct interface until the machine has finished printing.

Related Information

Print Duplicate Copies

Use the Carbon Copy function to make multiple copies of the same print data, as if printing on carbon paper. Send the data to individual paper trays that you loaded with different paper types or colours.

For example, you may want to set the machine to send your print data to Tray 1, which you have pre-loaded with blue coloured paper, and then reprint the data in a certain location on the page from the MP Tray, which you have loaded with yellow coloured paper that already contains text.

If you load blue paper in Tray 1 and yellow paper in the MP tray, the printer will automatically feed paper for Sheet 1 from Tray 1 and Sheet 2 from the MP Tray.

If you enable the Carbon Copy function, the machine will always make copies automatically.

Windows

The Carbon Copy function also allows you to select a different printing macro/stream for each page.

1. Press  [Settings] > [All Settings] > [Printer] > [Carbon Menu] > [Carbon Copy] > [On].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Swipe up or down or press ▲ or ▼ to display the [Copies] option, and then press the [Copies] option.
3. Enter the number of copies you want, and then press [OK].
4. Swipe up or down or press ▲ or ▼ to display the [Copy1 Tray] option, and then press the [Copy1 Tray] option.
5. Swipe up or down or press ▲ or ▼ to display the paper tray you want to configure for the [Copy1 Tray] option, and then press to select the paper tray.

Windows

- a. Swipe up or down or press ▲ or ▼ to display the [Copy1 Stream] option, and then press it.
- b. Swipe up or down or press ▲ or ▼ to display the ID number of the macro/stream you want to use, and then press it.

6. Repeat these steps until you have selected all the tray settings for each copy.
7. Press .
8. Send your print job to the machine.

Configure Universal Print

- Make sure you set the correct date and time for your time zone.
- If your network uses a proxy server, configure the proxy server settings.

Register Your Machine with Universal Print Using Web Based Management

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

3. Select the **Universal Print** checkbox, and then click **Advanced Settings**.
4. Change your machine's name in the **Device Name** field if necessary.

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

5. Click **Register**.
6. A Universal Print user code appears. Click the **Sign in** button, and then type the user code.
7. Follow the on-screen instructions to finish the registration.

Assign Universal Print Users via Microsoft Azure Portal

8. Access the Microsoft Azure portal.
URL: portal.azure.com
9. Log in as a Printer Administrator.
10. Select the **Universal Print** service.
11. Select the **Printers** option, and then select your machine from the list.
12. Select the **Share** option.
13. Select the users you want to assign to the Universal Print service, and then click **Share Printer**.

IMPORTANT

The LCD displays a message while reading the data. DO NOT unplug the power cord or remove the USB flash drive from the machine while it is reading the data. You could lose your data or damage the USB flash drive.

Related Information

- [Scan Using the Scan Button on Your Machine](#)
-

Scan Multiple Business Cards and Photos (Auto Crop)

You can scan multiple documents placed on the scanner glass. The machine will scan each document and use the Auto Crop feature to create separate files or a single multi-page file.

Guidelines for Auto Crop

1. 10 mm or greater
2. 20 mm or greater (bottom)
 - This setting is available only for documents that are rectangular or square.
 - If your document is too long or wide, this feature will not work as described here.
 - You must place the documents away from the edges of the scanner glass as shown in the illustration.
 - You must place the documents at least 10 mm away from each other.
 - Auto Crop adjusts the skew of the document on the scanner glass; however, if your document is skewed more than 45 degrees at less than 300 x 300 dpi or 10 degrees at 600 x 600 dpi, this feature will not work.
 - The ADF must be empty to use Auto Crop.
 - The Auto Crop feature is available for a maximum of 16 documents, depending on the size of the documents.

To scan documents using the Auto Crop feature, you must place the documents on the scanner glass.

1. Load documents on the scanner glass.
2. Insert a USB flash drive into your machine.
The LCD automatically changes.
3. Press [Scan to USB] >  [Options] > [Auto Crop].
4. Press [On].
5. Press [OK].
6. Press [Start].

The machine starts scanning. Follow the LCD instructions to complete the scanning job.

Send Scanned Data to an Email Recipient

Send scanned data directly from your machine to an email recipient without using a computer. This function allows your machine to scan documents and send them to an email address without your machine being connected to a computer. To send the scanned data as an attachment directly to your default email application using the iPrint&Scan software on your computer or the Scan button on your machine, use the "Scan to Email Attachment" function instead.

- To send scanned data to an email recipient, you must configure your machine to communicate with your network and email server, which is used to send and receive emails.
- Configure these items from the machine's control panel or Web Based Management.
- To use the Scan to Email Server function, connect your machine to the network and access an SMTP server. Set up the following SMTP email settings:
 - Server address
 - Port number
 - User name
 - Encryption type (SSL or TLS)
 - Email server certificate (if used)

If you do not know these settings, contact your email service provider or network administrator.

1. Load your document.
2. Press [Scan] > [to E-mail Server].

- If you registered your email address with your user ID, the [to My E-mail] option appears when you log on to the machine using Secure Function Lock, Active Directory Authentication, or LDAP Authentication.
- To send scanned data to your email address, press [to My E-mail]. When your email address appears on the LCD, press [Next].
- To enable this feature in Web Based Management, click **Scan > Scan to E-mail Server** in the left navigation bar. In the **Send to My E-mail** field, select **On**. Click **Submit**.

3. Do one of the following to enter the destination email address:
 - To enter the email address manually, press [Manual], and then enter the email address using the keyboard on the LCD. When finished, press [OK].
 - If the email address is stored in the machine's address book, press [Address Book], and then select the email address.
Press [OK].
4. Confirm the email address, and then press [Next].
5. To change the settings, press  [Options], and then select the scan settings you want to change.

Available options may differ depending on your model and settings.

- [Upload Scanned Data to an FTP Server](#)

Set up a Scan to FTP Profile

Set up a Scan to FTP Profile to scan and upload the scanned data directly to an FTP location.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Scan > Scan to FTP/SFTP/Network/SharePoint**.

If the left navigation bar is not visible, start navigating from ☰.

3. Select the **FTP** option, and then click **Submit**.
4. Click the **Scan to FTP/SFTP/Network/SharePoint Profile** menu.
5. Select the profile you want to set up or change.

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Port Number	Change the Port Number setting used to access the FTP server. The default setting is port 21. In most cases, this setting does not need to be changed.
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the FTP server.
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
SSL/TLS	Set the SSL/TLS option to scan securely using SSL/TLS communication. Change the CA Certificate setting, if needed.
Store Directory	Type the path to the folder on the FTP server where you want to send your scanned data. Do not type a slash mark at the beginning of the path.
File Name	Select a file name prefix from the preset names provided, or from user-defined names. The file name used for the scanned document will be the file name prefix you select, followed by the last six digits of the flatbed/ADF scanner counter and the file extension (for example: "Estimate_098765.pdf").
Quality	Select a quality setting. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Type	Select the file type you want to use for the scanned document. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
Document Size	Select your document size from the list. This is necessary to make sure the scanned file is the correct size. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Size	Select your file size from the list. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.

Option	Description
Auto Deskew (ADF Auto Deskew)	Select the Auto option to set the machine to correct document skewing automatically as the pages are scanned.
Skip Blank Page	Select the On option to remove blank pages of the document from the scanning results.
Skip Blank Page Sensitivity	Select the sensitivity level for detecting blank pages in the scanned data. The higher the sensitivity, the easier it is for the machine to detect blank pages.
2-sided Scan (available only for certain models)	Select the Long Edge or Short Edge option to scan both sides of the document, depending on the layout of your original.
Remove Background Colour	Change the amount of background colour that is removed.
Margin Settings	Adjust your document's margins.
Moire Reduction	Select On to reduce the moire pattern, or cross-hatching, in a scanned image.
Document Separation	Split a scanned image. When multiple documents have been scanned, you can split and save the documents separately by using this function.
Colour/Grey TIFF Compress	Select the TIFF compression option for a colour or grey document.
B&W TIFF Compress	Select the TIFF compression option for a black and white document.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
Passive Mode	Set the Passive Mode option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases, this setting does not need to be changed.

6. Click **Submit**.

Scan documents directly to a CIFS server on your local network. For added convenience, you can configure different profiles to save your favourite Scan to Network destinations.

- [Set up a Scan to Network Profile](#)
- [Upload Scanned Data to a CIFS Server](#)

Set up a Scan to Network Profile

Set up a Scan to Network Profile to scan and upload scanned data directly to a folder on a CIFS server.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Scan > Scan to FTP/SFTP/Network/SharePoint**.

 If the left navigation bar is not visible, start navigating from ☰.

3. Select the **Network** option, and then click **Submit**.

 If you want to send the data to your designated folder on the CIFS server, select **On** for the **Send to My Folder** option.

4. Click the **Scan to FTP/SFTP/Network/SharePoint Profile** menu.
5. Select the profile you want to set up or change.

 Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Network Folder Path	Type the path to the folder on the CIFS server where you want to send your scanned data.
File Name	Select a file name prefix from the preset names provided, or from user-defined names. The file name used for the scanned document will be the file name prefix you select, followed by the last six digits of the flatbed/ADF scanner counter and the file extension (for example: "Estimate_098765.pdf").
Quality	Select a quality setting. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Type	Select the file type you want to use for the scanned document. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
Document Size	Select your document size from the list. This is necessary to make sure the scanned file is the correct size. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Size	Select your file size from the list. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
Auto Deskew (ADF Auto Deskew)	Select the Auto option to set the machine to correct document skewing automatically as the pages are scanned.
Skip Blank Page	Select the On option to remove blank pages of the document from the scanning results.
Skip Blank Page Sensitivity	Select the sensitivity level for detecting blank pages in the scanned data. The higher the sensitivity, the easier it is for the machine to detect blank pages.
2-sided Scan (available only for certain models)	Select the Long Edge or Short Edge option to scan both sides of the document, depending on the layout of your original.
Remove Background Colour	Change the amount of background colour that is removed.

Option	Description
Margin Settings	Adjust your document's margins.
Moire Reduction	Select On to reduce the moire pattern, or cross-hatching, in a scanned image.
Document Separation	Split a scanned image. When multiple documents have been scanned, you can split and save the documents separately by using this function.
Colour/Grey TIFF Compress	Select the TIFF compression option for a colour or grey document.
B&W TIFF Compress	Select the TIFF compression option for a black and white document.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
Use PIN for Authentication	To PIN-protect this profile, select On and type a four-digit PIN in the PIN Code field.
Auth. Method	To set your authentication method, select Auto , Kerberos , or NTLMv2 .
Username	Type a user name (up to 96 characters) of a user that has permission to write data to the folder specified in the Network Folder Path field. If the user name is part of a domain, enter the user name in one of the following styles: <ul style="list-style-type: none"> • user@domain • domain\user
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
Kerberos Server Address	When you select Kerberos for the Auth. Method option, you must type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).

- Click **Submit**.
- You must configure the SNTP protocol (network time server) or set the date, time and time zone correctly on the control panel for all authentication methods. The machine's time must match the time used by the Kerberos Server and CIFS Server.

Scan Using Kofax PaperPort™ 14SE or Other Windows Applications

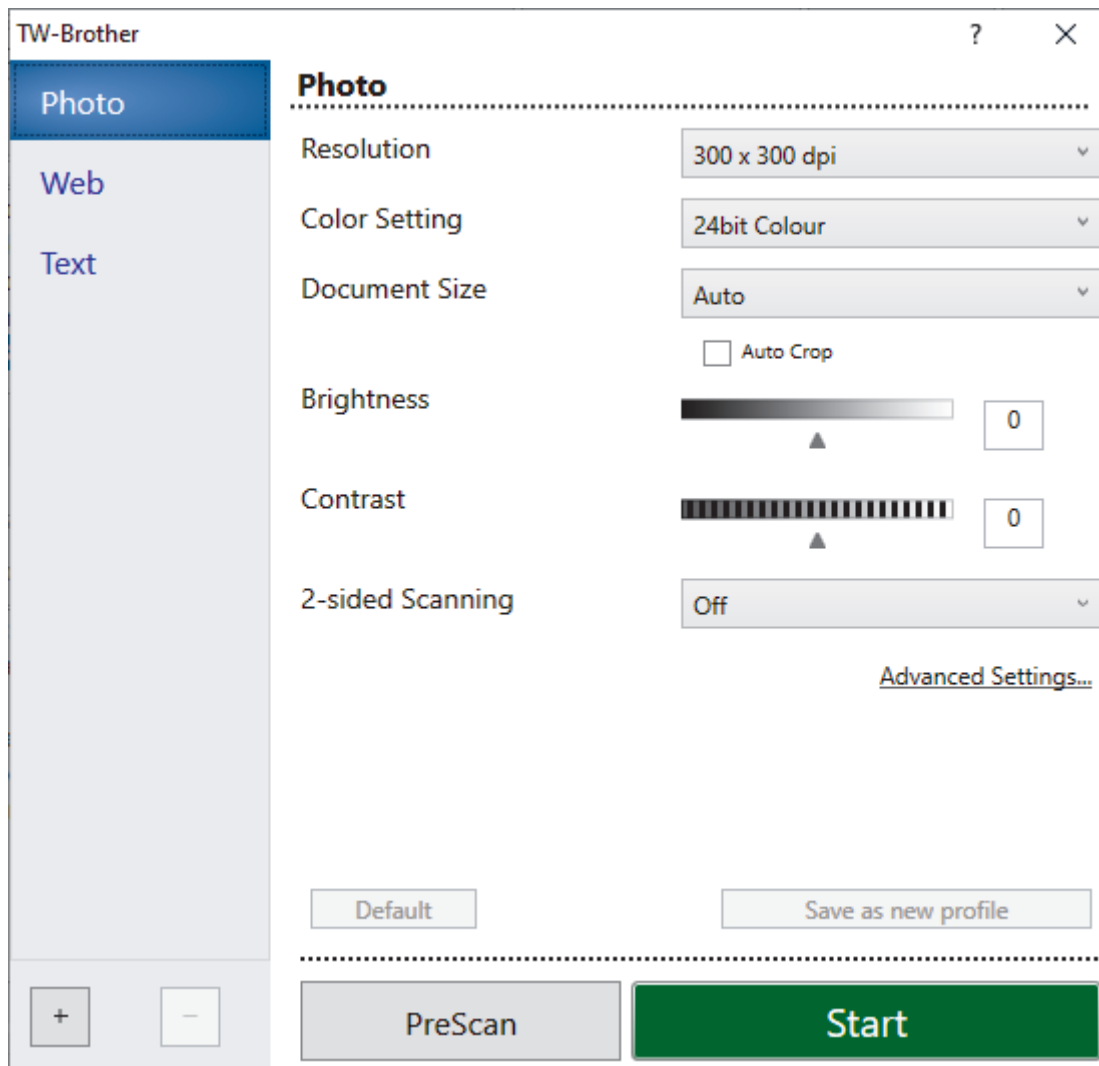

You can use the Kofax PaperPort™ 14SE application for scanning.

- This function is not available in countries subject to applicable export regulations.
- To download the Kofax PaperPort™ 14SE application, click  (**Brother Utilities**), select **Do More** in the left navigation bar, and then click **PaperPort**.

The instructions for scanning in these steps are for PaperPort™ 14SE. For other Windows applications, the steps will be similar. PaperPort™ 14SE supports both TWAIN and WIA drivers; the TWAIN driver (recommended) is used in these steps.

1. [Load your document](#).
2. Start PaperPort™ 14SE.
Do one of the following:
 - Windows 11
Click  > **All apps** > **Kofax PaperPort 14** > **PaperPort**.
 - Windows 10
Click  > **Kofax PaperPort 14** > **PaperPort**.
3. Click the **Desktop** menu, and then click **Scan Settings** in the **Desktop** ribbon.
The **Scan or Get Photo** panel appears on the left side of the screen.
4. Click **Select**.
5. From the available Scanners list, select your model with **TWAIN: TW** in the name.
6. Click **OK**.
7. Select the **Display scanner dialog box** checkbox in the **Scan or Get Photo** panel.
8. Click **Scan**.
The Scanner Setup dialog box appears.

- Adjust the settings in the Scanner Setup dialog box, if needed.
- Click the **Document Size** drop-down list, and then select your document size.

To scan both sides of the document (MFC-L8730CDW/MFC-L8970CDW/MFC-EX570): Automatic 2-sided scan is available only when using the ADF. You cannot use PreScan to preview the scanned image.

- Click **PreScan** to preview your image and crop unwanted portions before scanning.
- Click **Start**.
The machine starts scanning.

Related Information

TWAIN Driver Settings (Windows)

- Note that the item names and assignable values will vary depending on the machine.
- The **Contrast** option is available only when selecting the **Grey (Error Diffusion)**, **True Grey**, or **24bit Colour** options from the **Color Setting** settings.

1. Scan

Select the **Photo**, **Web**, or **Text** option depending on the type of document you want to scan.

Scan (Image Type)		Resolution	Colour Setting
Photo	Use for scanning photo images.	300 x 300 dpi	24bit Colour
Web	Use for attaching scanned images to web pages.	100 x 100 dpi	24bit Colour
Text	Use for scanning text documents.	200 x 200 dpi	Black & White

2. Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and a longer transfer time, but produce a higher quality scanned image.

3. Color Setting

Select from a range of scan colour depths.

-
- **Black & White**
Use for text or line art images.
 - **Grey (Error Diffusion)**
Use for photographic images or graphics. (Error Diffusion is a method for creating simulated grey images without using true grey dots. Black dots are arranged in a specific pattern to give a grey appearance.)
 - **True Grey**
Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of grey.
 - **24bit Colour**
Use to create an image with the most accurate colour reproduction. This mode uses up to 16.8 million colours to scan the image, but it requires the most memory and has the longest transfer time.

4. Document Size

Select the exact size of your document from a selection of preset scan sizes.

If you select **Custom**, the **Custom Document Size** dialog box appears and you can specify the document size.

5. Auto Crop

Scan multiple documents placed on the scanner glass. The machine will scan each document and create separate files or a single multi-page file.

6. Brightness

Set the brightness level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value in the field to set the brightness level.

7. Contrast

Increase or decrease the contrast level by moving the slider to the right or left. An increase emphasises dark and light areas of the image, while a decrease reveals more details in grey areas. You can also type a value in the field to set the contrast level.

8. 2-sided Scanning (MFC-L8730CDW/MFC-L8970CDW/MFC-EX570)

Scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option from the **2-sided Scanning** drop-down list, so that when you turn the pages, they are facing the way you want.

9. Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** link in the Scan Settings dialog box.

- **Document Correction**
 - **Auto Deskew**
Set the machine to correct document skewing automatically as the pages are scanned.
 - **Detect End of Page (ADF)**
Detects the end of page and automatically adjusts the size of a page when the length of the document scanned from the ADF is shorter than the selected document size.
 - **Margin Settings**
Adjust the margins in your document.
 - **Rotate Image**
Rotate the scanned image.
 - **Fill With Color**
Fill in the edges on four sides of the scanned image using the selected colour and range.
 - **Skip Blank Page**
Remove the document's blank pages from the scanning results.
 - **Fixed-size Output Mode (Letter/Legal)**

Scan mixed size documents. The machine detects each document size and creates a file including Letter and Legal size pages. To use this mode, select the **Auto** option from the **Document Size** drop-down list.

- **Image Quality**
 - **Background Processing**
 - **Remove Bleed-through / Pattern**

Prevent bleed-through.
 - **Remove Background Colour**

Remove the base colour of documents to make the scanned data more legible.
 - **Colour Drop**

Select a colour to remove from the scanned image.
 - **Edge Emphasis**

Make the characters of the original sharper.
 - **Reduce Noise**

Improve the quality of your scanned images with this selection. The **Reduce Noise** option is available when selecting the **24bit Colour** option and the **300 x 300 dpi**, **400 x 400 dpi**, or **600 x 600 dpi** scan resolution.
 - **Moire Reduction**

Improve the quality of your scanned images with this selection. The **Moire Reduction** option is available when selecting the **100 x 100 dpi**, **150 x 150 dpi**, **200 x 200 dpi** or **300 x 300 dpi** scan resolution.
- **B&W Image Quality**
 - **Character Correction**
 - **Blurred Character Correction**

Correct the broken or incomplete characters of the original to make them easier to read.
 - **Boldface Formatting**

Emphasise the characters of the original by making them bold.
 - **B&W Inversion**

Invert black and white in the monochrome image.
- **Feed Control**
 - **Layout**

Select the layout.
 - **Continuous Scan**

Select this option to scan multiple pages. After a page is scanned, select whether to continue scanning or finish.

Scan Using Windows Fax and Scan

The Windows Fax and Scan application is another option that you can use for scanning.

- Windows Fax and Scan uses the WIA scanner driver.
- If you plan to crop a portion of a scanned page, you must scan the original document using the scanner glass (also called the flatbed), not by feeding it through the Automatic Document Feeder (ADF).

1. [Load your document.](#)
2. Launch Windows Fax and Scan.
3. Click **File > New > Scan.**
4. Select the scanner you want to use.
5. Click **OK.**

The **New Scan** dialog box appears.

6. Adjust the settings in the dialog box, if needed.
If your machine supports 2-sided scanning and you want to scan both sides of your document, select **Feeder (Scan both sides)** from the **Source** drop-down list.
7. Click **Scan.**
The machine starts scanning the document.

PBX and TRANSFER

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

The machine's [Phone Line Set] default setting is [Normal], which lets the machine connect to a standard Public Switched Telephone Network (PSTN) line. However, many offices use a central telephone system or Private Branch Exchange (PBX). Your machine can be connected to most types of PBX. The machine's recall feature supports timed break recall only (TBR). TBR will work with most PBX systems allowing you to gain access to an outside line, or transfer calls to another extension. To use this feature, press the button in the table.

Applicable Models	To use the machine's recall feature
MFC-L8730CDW/MFC-L8970CDW/MFC-EX570	R

Assign a telephone number to the button stored in the Address Book (One Touch Dial and Speed Dial in some models). When programming the Address Book number (One Touch Dial number and Speed Dial number in some models), press the button first (the LCD displays '!'), then enter the telephone number. This avoids having to press the button each time before you dial from the Address Book (One Touch Dial or Speed Dial). Your Telephone Line Type must be set to PBX on the machine to use this feature.

1. [Load your document.](#)

2. Press  [Fax].

If the Fax Preview option is set to [On], press  [Fax] > [Sending Faxes].

3. Enter the fax number.

- **Using the dial pad**

Press the digits to enter the fax number.

- **Using the Address Book**

Press  [Address Book], and then do one of the following:

- Swipe up or down or press ▲ or ▼ to display the number you want, and then press it.
- Press  [Search:], and then enter the name or the first letter of the name and press [OK]. Press the name you want to dial.

When finished, press [Apply].

- **Using the Call History**

Press  [Call History], and then press the [Outgoing Call] option.

Swipe up or down or press ▲ or ▼ to display the fax number you want, and then press it.

To send a fax, press [Apply].

To change the fax-sending settings, press  [Options].

For more information, see *Related Information*.

4. Press [Fax Start].

The machine scans and sends the document.

If you placed the document on the scanner glass, follow the instructions in the table.

Option	Description
Yes	To scan the next page, press the Yes option, and then place the next page on the scanner glass. Press OK to scan the page.
No	After you have scanned the last page, press the No option. The machine sends the document.

To stop faxing, press , and then press .

When the LCD displays [Cancel Job?], press [Yes].

Send the Same Fax to More than One Recipient (Broadcasting)

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

Use the Broadcasting feature to send the same fax to multiple fax numbers at the same time.

- The same broadcast can include Groups, Address Book numbers, and up to 50 manually dialed numbers.
- Address Book numbers must be stored in the machine's memory before they can be used in a broadcast.
- Group numbers must also be stored in the machine's memory before they can be used in a broadcast. Group numbers include many stored Address Book numbers for easier dialling.

If you did not use any of the Address Book numbers for Groups, you can broadcast faxes to the maximum number of locations supported by your machine. For information about the broadcasting locations, see *Related Information: Specifications*.

1. Load your document.

2. Press  [Fax].

If the Fax Preview option is set to [On], press  [Fax] > [Sending Faxes].

3. Press  [Options] > [Broadcasting].

4. Press [Add Number].

You can add numbers to the broadcast in the following ways:

- Press [Add Number] and enter a number using the LCD.
Press [OK].

If you want to broadcast using an email address, press , enter the email address, and press [OK].

(On certain models, you must download Internet Fax to use the Internet Fax feature and the Scan to Email server feature.)

- Press [Add from Address book]. Swipe up or down or press ▲ or ▼ to display the number you want to add to the broadcast. Select the checkboxes of the broadcast. After you select all the numbers you want, press [OK].
- Press [Search in Address book]. Press the name or the first letter of the name, and then press [OK]. Press the name, and then press the number you want to add.

5. When finished, press [OK].

If your machine displays , press it.

6. Press [Fax Start].

- The machine's available memory will vary depending on the types of jobs in the memory and the numbers used for broadcasting. If you broadcast to the maximum number available, you will not be able to use dual access and delayed fax.
- If the [Out of Memory] message appears, press  or [Quit] to stop the job. If more than one page has been scanned, press [Send Now] to send the portion that is in the machine's memory.

Fax Options

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

To change the fax-sending settings, press  [Options].

Available options may differ depending on your model and settings.

Option	Description
Fax Resolution	Set the resolution for outgoing faxes. The fax quality often can be improved by changing the Fax Resolution.
Sender Subject	Edit the subject of an outgoing fax.
Contrast	Adjust the contrast. If your document is very light or very dark, changing the contrast may improve the fax quality.
2-sided Fax (For automatic 2-sided scanning models)	Set the 2-sided scanning format.
Glass Scan Size	Adjust the scan area of the scanner glass to the size of the document.
Broadcasting	Send the same fax message to more than one fax number at the same time.
Preview	Preview a fax message before you send it.
Delayed Fax	Set the time of day the delayed faxes will be sent.
Real Time TX	Send a fax immediately without waiting for the machine to retrieve the scan from its memory.
Coverpage Setup	Set the machine to automatically send a pre-programmed cover page.
Overseas Mode	Set to On if you have difficulty sending faxes overseas.
Call History	Select a number from the Call History.
Address Book	Select a number from the Address Book.
Set New Default	Save your settings as the default.
Factory Reset	Restore all settings back to the factory settings.

You can save the current settings by pressing [Save as Shortcut].

Receive Modes Overview

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

Some receive modes answer automatically (Fax Only Mode and Fax/Tel Mode). You may want to change the Ring Delay before using these modes.

Fax Only Mode

([Fax Only] in the machine's menu)

Fax Only Mode automatically answers every call as a fax.

Fax/Tel Mode

([Fax/Tel] in the machine's menu)

Fax/Tel Mode helps you manage incoming calls, by recognising whether they are fax or voice calls and handling them in the following ways:

- Faxes will be received automatically.
- Voice calls will start the F/T ring to tell you to pick up the call. The F/T ring is a fast pseudo/double-ring made by your machine.

Manual Mode

([Manual] in the machine's menu)

Manual Mode turns off all automatic answering operations unless you are using the BT Call Sign feature.

To receive a fax in Manual Mode, lift the handset of the external telephone connected to the machine.

When you hear fax tones (short repeating beeps), press the buttons in the table to receive a fax. Use the Fax Detect feature to receive faxes when you have lifted a handset on the same line as the machine.

Applicable Models	To receive a fax
MFC-L8730CDW/MFC-L8970CDW/MFC-EX570	Fax Start > Receive

External TAD Mode

([External TAD] in the machine's menu)

External TAD Mode lets an external answering device manage your incoming calls.

Incoming calls will be handled in the following ways:

- Faxes will be received automatically.
- Voice callers can record a message on the external TAD.

✓ Related Information

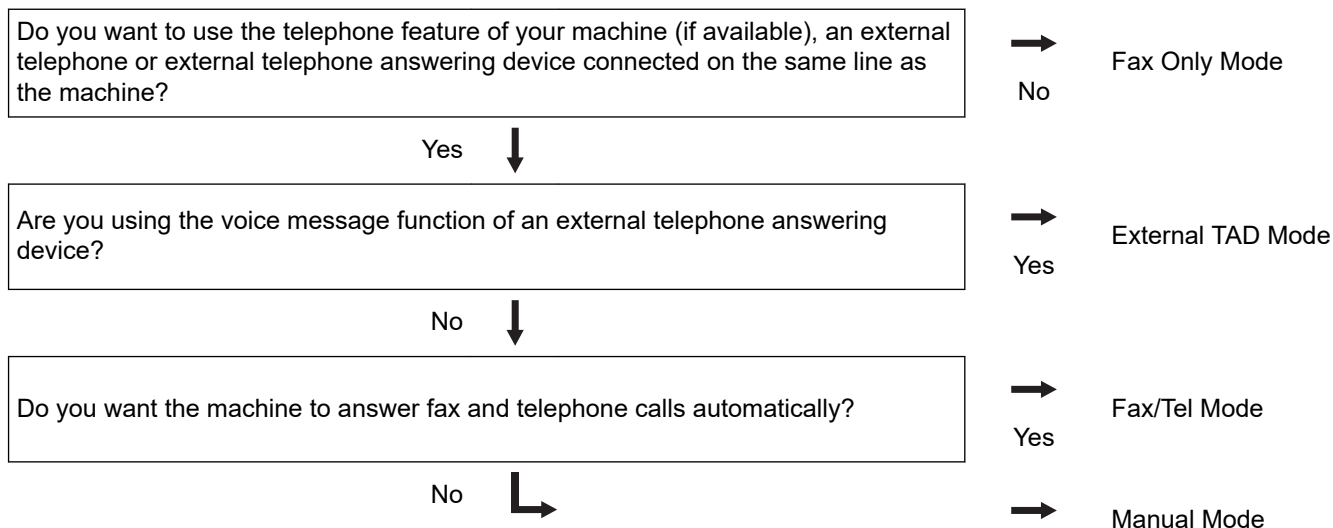

- [Receive Mode Settings](#)

Choose the Correct Receive Mode

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

You must choose a Receive Mode depending on the external devices and telephone services you have on your line.

By default, your machine will automatically receive any faxes that are sent to it. The diagram below will help you select the correct mode.

1. Press  [Settings] > [All Settings] > [Fax] > [Setup Receive] > [Receive Mode].

 If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

 (U.K. only) If you cannot change the [Receive Mode] option, make sure the BT Call Sign feature is set to Off.

2. Press [Fax Only], [Fax/Tel], [External TAD], or [Manual].

3. Press .

- [Receive Mode Settings](#)

Set the Number of Rings Before the Machine Answers (Ring Delay)

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

When somebody calls your machine, you will hear the normal telephone ring sound. The number of rings is set in the Ring Delay option.

- The Ring Delay setting sets the number of times the machine rings before it answers in the Fax Only and Fax/Tel Modes.
- If you have external or extension telephones on the same line as the machine, choose the maximum number of rings.

1. Press  [Settings] > [All Settings] > [Fax] > [Setup Receive] > [Ring Delay].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press the number of rings you want.

If you select [0], the machine will answer immediately and the line will not ring at all (available only for some countries).

3. Press .

Related Information

- [Receive Mode Settings](#)

Set the F/T Ring Time (Fast Double-ring)

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

When you set the Receive Mode to Fax/Tel Mode, if the call is a fax, your machine will automatically receive it. However, if it is a voice call, the machine will sound the F/T ring (fast double-ring) for the time you set in the F/T Ring Time option. When you hear the F/T ring, it means that a voice caller is on the line.

The F/T Ring Time feature works when you set Fax/Tel Mode as the Receive Mode.

Because the F/T ring is made by the machine, extension and external telephones will not ring; however, you can still answer the call on any telephone.

1. Press  [Settings] > [All Settings] > [Fax] > [Setup Receive] > [F/T Ring Time].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press how long you want the machine to ring to alert you that you have a voice call.
3. Press .

Even if the caller hangs up during the pseudo/double-ringing, the machine will continue to ring for the set time.

Print a Fax Journal

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

You can set the machine to print a Fax Journal at specific intervals (every 50 faxes, 6, 12 or 24 hours, 2 or 7 days).

1. Press  [Settings] > [All Settings] > [Fax] > [Report Setting] > [Journal Period] > [Journal Period].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Swipe up or down or press ▲ or ▼ to select the interval you want, and then press it.
 - Every 6, 12, 24 hours, 2 or 7 days
The machine will print the report at the selected time and then erase all reception and transmission log data from its memory. If the machine's memory becomes full with 200 log data before the time you selected has passed, the machine will print the Journal early and then erase all jobs from the memory. If you want an extra report before it is due to print, you can print it without erasing the log data from the memory.
 - Every 50 Faxes
The machine will print the Journal when the machine has stored 50 reception and transmission log data.
3. If you selected every 6, 12, 24 hours, 2 or 7 days, press [Time] and enter the time to start printing (in 24-hour format) using the LCD, and then press [OK]. (For example: enter 19:45 for 7:45 PM.)
4. If you selected [Every 7 Days], press [Day].
5. Swipe up or down or press ▲ or ▼ to display the [Every Monday], [Every Tuesday], [Every Wednesday], [Every Thursday], [Every Friday], [Every Saturday] or [Every Sunday] option, and then press the first day of the 7-day countdown.
6. Press .

- [Configure Network Settings](#)
- [Wireless Network Settings](#)
- [Network Features](#)
- [Brother Management Tools](#)

Supported Basic Network Features

The machine supports various features depending on the operating system. Use this table to see which network features and connections are supported by each operating system.

Operating Systems	Windows	Windows Server	macOS
Printing	Yes	Yes	Yes
Scanning	Yes		Yes
PC Fax Send (available for certain models)	Yes		Yes
PC Fax Receive (available for certain models)	Yes		
Web Based Management ¹	Yes	Yes	Yes

¹ The default password to manage your machine's settings is located on the back of the machine and marked "Pwrd". We recommend immediately changing the default password to protect your machine from unauthorised access.

- When connecting your machine to an outside network such as the Internet, make sure your network environment is protected by a separate firewall or other means in order to prevent information leaks due to inadequate settings or unauthorised access by malicious third parties.
- When your machine is connected to the global network, a warning appears. When you see this warning, we strongly recommend confirming your network settings, and then re-connecting to a secure network.
- Enabling your machine's global network communication filtering feature blocks access from the global network. The global network communication filtering feature may prevent the machine from receiving certain print or scan jobs from a computer or mobile device that uses a global IP address.

- [Configure Your Machine for a Wireless Network When the SSID Is Not Broadcast](#)
- [Configure Your Machine for an Enterprise Wireless Network](#)

Before Configuring Your Machine for a Wireless Network

Before attempting to configure a wireless network, confirm the following:

- If you are using an enterprise wireless network, you must know the User ID and Password.
- To achieve optimum results with normal everyday document printing, place your machine as close to the wireless LAN access point/router as possible with minimal obstructions. Large objects and walls between the two devices and interference from other electronic devices can affect the data transfer speed of your documents.

Due to these factors, wireless may not be the best method of connection for all types of documents and applications. If you are printing large files, such as multi-page documents with mixed text and large graphics, you may want to consider selecting wired Ethernet for faster data transfer (supported models only), or USB for the fastest throughput speed.

- Although your machine can be used in a wired and wireless network (supported models only), only one connection method can be used at a time. However, a wireless network connection and Wi-Fi Direct connection, or a wired network connection (supported models only) and Wi-Fi Direct connection can be used at the same time.
- If there is a signal in the vicinity, wireless LAN allows you to freely make a LAN connection. However, if security settings are not correctly configured, the signal may be intercepted by malicious third-parties, possibly resulting in:
 - Theft of personal or confidential information
 - Improper transmission of information to parties impersonating the specified individuals
 - Dissemination of transcribed communication contents that were intercepted

Make sure you know your wireless router/access point's Network Name (SSID) and Network Key (Password). If you cannot find this information, consult the manufacturer of your wireless router/access point, your system administrator, or Internet provider. Brother cannot provide this information.

Related Information

Configure Your Machine for a Wireless Network Using the Machine's Control Panel Setup Wizard

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and record the current wireless network settings of the computer to which you are connecting.

Network Name (SSID)	Network Key (Password)

For example:

Network Name (SSID)	Network Key (Password)
HELLO	12345

- Your access point/router may support the use of multiple WEP keys, but your Brother machine supports the use of only the first WEP key.
- If you need assistance during setup and want to contact Brother customer service, make sure you have your SSID (Network Name) and Network Key (Password) ready. We cannot assist you in locating this information.
- If you do not know this information (SSID and Network Key), you cannot continue with the wireless setup.

How can I find this information?

- a. Check the documentation provided with your wireless access point/router.
- b. The initial SSID could be the manufacturer's name or the model name.
- c. If you do not know the security information, consult the router manufacturer, your system administrator, or your Internet provider.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [Find Wi-Fi Network].

 If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

3. When [Switch Network interface to wireless?] appears, press [Yes].

This will start the wireless setup wizard. To cancel, press [No].

4. The machine searches for your network and display a list of available SSIDs.

If a list of SSIDs is displayed, swipe up or down or press ▲ or ▼ to display the SSID to which you want to connect, and then press the SSID.

 If the SSID you want is not displayed, press [Search again] to search your network again.

5. Press [OK].
6. If required, enter the Network Key you wrote down in the first step, and then press [OK].
7. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for a Wireless Network Using the One Push Method of Wi-Fi Protected Setup™ (WPS)

If your wireless access point/router supports WPS (PBC: Push Button Configuration), you can use WPS from your machine's control panel menu to configure your wireless network settings.

1. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [WPS/Push Button].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. When [Switch Network interface to wireless?] appears, press [Yes].
This will start the wireless setup wizard. To cancel, press [No].
3. When the touchscreen displays [Start WPS on your wireless access point/router, then press [OK].], press the WPS button on your wireless access point/router. Then press [OK] on your machine. Your machine will automatically detect your wireless access point/router and try to connect to your wireless network.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for a Wireless Network Using the PIN Method of Wi-Fi Protected Setup™ (WPS)

If your wireless LAN access point/router supports WPS, you can use the Personal Identification Number (PIN) Method to configure your wireless network settings.

The PIN Method is one of the connection methods developed by the Wi-Fi Alliance®. By submitting a PIN created by an Enrollee (your machine) to the Registrar (a device that manages the wireless LAN), you can set up the wireless network and security settings. For more information on how to access WPS mode, see the instructions provided with your wireless access point/router.

Type A

Connection when the wireless LAN access point/router (1) doubles as the Registrar:

Type B

Connection when another device (2), such as a computer, is used as the Registrar:

1. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [WPS/PIN Code].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. When [Switch Network interface to wireless?] appears, press [Yes].

This will start the wireless setup wizard. To cancel, press [No].

3. The LCD displays an eight-digit PIN and the machine starts searching for a wireless LAN access point/router.
4. Using a computer connected to the network, in your browser's address bar, type the IP address of the device you are using as the Registrar (for example: <http://192.168.1.2>).
5. Go to the WPS settings page and type the PIN, and then follow the on-screen instructions.

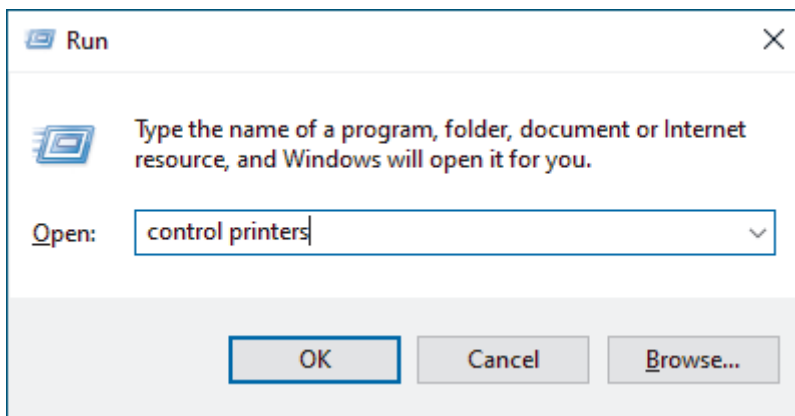

- The Registrar is usually the wireless LAN access point/router.
- The settings page may differ depending on the brand of wireless LAN access point/router. For more information, see the instructions supplied with your wireless LAN access point/router.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

If you are using a Windows 10 or Windows 11 computer as a Registrar, complete the following steps:

6. Hold down the  key and press the  key on the computer's keyboard to launch **Run**.
7. Type "**control printers**" in the **Open:** field and click **OK**.

The **Devices and Printers** window appears.

If the **Devices and Printers** window does not appear, click **Devices > More devices and printer settings**.

8. Click **Add a device**.

- To use a Windows 10 or Windows 11 computer as a Registrar, you must register it to your network in advance. For more information, see the instructions supplied with your wireless LAN access point/router.
- If you use Windows 10 or Windows 11 as a Registrar, you can install the printer driver after the wireless configuration by following the on-screen instructions. To install the driver and software necessary to use your machine, go to your model's **Downloads** page at support.brother.com/downloads.

9. Select your machine and click **Next**.
10. Type the PIN displayed on the machine's LCD, and then click **Next**.
11. Click **Close**.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for a Wireless Network When the SSID Is Not Broadcast

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and write down the current wireless network settings.

Network Name (SSID)		
Authentication Method	Encryption Mode	Network Key
Open System	NONE	-
	WEP ¹	
Shared Key	WEP ¹	
WPA/WPA2-PSK	AES	
	TKIP	
WPA3-SAE	AES	

¹ You cannot select the WEP option from the control panel. To select the WEP option for the encryption mode, use Web Based Management.

For example:

Network Name (SSID)		
HELLO		
Authentication Method	Encryption Mode	Network Key
WPA3-SAE	AES	12345678

2. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [Find Wi-Fi Network].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

3. When [Switch Network interface to wireless?] appears, press [Yes].
This will start the wireless setup wizard. To cancel, press [No].
4. The machine will search for your network and display a list of available SSIDs. Swipe up or down or press ▲ or ▼ to display [Add SSID]. Press [Add SSID], and then press [OK].
5. Enter the SSID name, and then press [OK].
6. Select the Authentication Method.
7. Follow the instructions on the LCD to configure the settings.
8. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for an Enterprise Wireless Network

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and write down the current wireless network settings.

Network Name (SSID)			
Authentication Method	Encryption Mode	User ID	Password
EAP-FAST/NONE	AES		
	TKIP		
EAP-FAST/MS-CHAPv2	AES		
	TKIP		
EAP-FAST/GTC	AES		
	TKIP		
PEAP/MS-CHAPv2	AES		
	TKIP		
PEAP/GTC	AES		
	TKIP		
EAP-TTLS/CHAP	AES		
	TKIP		
EAP-TTLS/MS-CHAP	AES		
	TKIP		
EAP-TTLS/MS-CHAPv2	AES		
	TKIP		
EAP-TTLS/PAP	AES		
	TKIP		
EAP-TLS	AES		-
	TKIP		-

For example:

Network Name (SSID)			
HELLO			
Authentication Method	Encryption Mode	User ID	Password
EAP-FAST/MS-CHAPv2	AES	Brother	12345678

- If you configure your machine using EAP-TLS authentication, you must install the client certificate issued by a CA before you start configuration. Contact your network administrator about the client certificate. If you have installed more than one certificate, we recommend writing down the certificate name you want to use.
- If you verify your machine using the common name of the server certificate, we recommend writing down the common name before you start configuration. Contact your network administrator about the common name of the server certificate.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [Find Wi-Fi Network].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

3. When [Switch Network interface to wireless?] appears, press [Yes].
This will start the wireless setup wizard. To cancel, press [No].
4. The machine will search for your network and display a list of available SSIDs. Swipe up or down or press ▲ or ▼ to display [Add SSID]. Press [Add SSID], and then press [OK].
5. Enter the SSID name, and then press [OK].
6. Select the Authentication Method.
7. Follow the instructions on the LCD to configure the settings.
8. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected]. Press [OK], and then press .

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Wi-Fi Direct Overview

Wi-Fi Direct is one of the wireless configuration methods developed by the Wi-Fi Alliance®. It allows you to securely connect your mobile device to your machine without using a wireless router/access point.

1. Mobile device
2. Your machine

- You can use Wi-Fi Direct with the wired or wireless network connection at the same time.
- The Wi-Fi Direct-supported device can become a Group Owner. When configuring the Wi-Fi Direct network, the Group Owner serves as an access point.

Related Information

- [Use Wi-Fi Direct®](#)

Related Topics:

- [Configure Wi-Fi Direct Network Using the Push Button Method](#)

Configure Your Wi-Fi Direct Network Manually

Depending on the device, if you connect to the Wi-Fi Direct network manually, your mobile device may disconnect from the connected wireless network and automatically switch to mobile data communication. If necessary, reconnect to the original wireless network after use. If your device continues to automatically switch to the Wi-Fi Direct network, turn off the automatic connection setting on your mobile device.

Configure the Wi-Fi Direct settings from the machine's control panel:

When the machine receives a Wi-Fi Direct request from your mobile device, the message [Wi-Fi Direct connection request received. Press [OK] to connect.] appears on the LCD. Press [OK] to connect.

1. Press  [Settings] > [All Settings] > [Network] > [Wi-Fi Direct] > [Manual].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. The machine will display the SSID (Network Name) and Password (Network Key). Go to your mobile device's wireless network settings screen, select the SSID, and then enter the password.

- You can also configure a Wi-Fi Direct network using the QR Code displayed on the LCD. Scan the QR Code, and then follow the LCD instructions.
- Read the QR Code from the standard camera app on the iOS 11 or later, or from the Wi-Fi settings menu or standard camera app on Android™ 10 or later. If the QR Code cannot be read, manually enter the Network Name (SSID) and Network Key (Password) to connect.

3. When your mobile device connects successfully, the machine's LCD displays [Connected].

Configure Wi-Fi Direct Network Using the Push Button Method

To perform Wi-Fi Direct network settings when using an Android™ device, install Brother Mobile Connect, select Wi-Fi Direct as the method for connecting to this product, and follow the on-screen directions.

When the machine receives a Wi-Fi Direct request from your mobile device, the message [Wi-Fi Direct connection request received. Press [OK] to connect.] appears on the LCD. Press [OK] to connect.

1. Press  [Settings] > [All Settings] > [Network] > [Wi-Fi Direct] on your machine's LCD.

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. If your mobile device does not support Wi-Fi Direct, press [Group Owner] > [On].

Depending on the device, if you connect with [Group Owner] set to [On], your mobile device may disconnect from the connected wireless network and automatically switch to mobile data communication. If necessary, reconnect to the original wireless network after use. If your device continues to automatically switch to the Wi-Fi Direct network, turn off the automatic connection setting on your mobile device.

3. Press [Push Button].
4. When the [Activate Wi-Fi Direct on other device. Then Press [OK].] message appears, turn your mobile device's Wi-Fi Direct function on (for more information, see your mobile device's user's guide). Press [OK] on your machine.
5. Do one of the following:
 - If your mobile device displays a list of machines with Wi-Fi Direct enabled, select your Brother machine.
 - If your Brother machine displays a list of mobile devices with Wi-Fi Direct enabled, select your mobile device. To search for available devices again press [Rescan].
6. When your mobile device connects successfully, the machine's LCD displays [Connected].

Check that all wireless network settings are correct for your network.</p>

Error Code	Problem and Recommended Solutions
TS-05	<p>The Network Name (SSID) and Network Key (Password) are incorrect.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none"> • Confirm the Network Name (SSID) and Network Key (Password). • If your Network Key contains upper-case and lower-case letters, make sure you type them correctly. • If you cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider. • If your wireless router/access point uses WEP encryption with multiple WEP keys, write down and use only the first WEP key.
TS-06	<p>The wireless security information (authentication method/encryption method/Network Key (Password)) is incorrect.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none"> • Confirm the Network Key. If your Network Key contains upper-case and lower-case letters, make sure you type them correctly. • Confirm whether the authentication method entered and the authentication method or encryption method supported by the wireless router/access point are the same. • If the Network key, authentication method, and encryption method have been confirmed, restart your wireless router/access point and the machine. • If your wireless router/access point's Stealth Mode is on, you may need to disable it to connect to the wireless network. <p>If you cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.</p>
TS-07	<p>The machine cannot detect a wireless router/access point that has WPS (Wi-Fi Protected Setup) enabled.</p> <p>Check the following points and try again:</p> <ul style="list-style-type: none"> • To check if your wireless router/access point supports WPS, look for the WPS symbol displayed on the router/access point. For more information, see the documentation provided with your wireless router/access point. • To set up your wireless connection using WPS, you must configure both your machine and the wireless router/access point. For more information, see the user's guide. • If you do not know how to set up your wireless router/access point using WPS, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.
TS-08	<p>Two or more wireless routers or access points that have WPS enabled are detected.</p> <p>Check the following points and try again:</p> <ul style="list-style-type: none"> • Make sure that only one wireless router/access point within range has WPS enabled, and then try to connect again. • Try to connect again after a few minutes to avoid interference from other access points/routers.

How to confirm wireless security information (SSID/authentication method/encryption method/Network Key) of your WLAN access point/router:

1. The default security settings may be provided on a label attached to the WLAN access point/router. Or the manufacturer's name or model number of the WLAN access point/router may be used as the default security settings.
2. See the documentation provided with your WLAN access point/router for information on how to find the security settings.
 - If the WLAN access point/router is set to not broadcast the SSID, the SSID will not automatically be detected. You will have to manually enter the SSID name.
 - The Network Key may also be described as the Password, Security Key, or Encryption Key.

If you do not know the SSID and wireless security settings of your WLAN access point/router or how to change the configuration, see the documentation provided with your WLAN access point/router, ask the manufacturer of your access point/router or ask your Internet provider or network administrator.

Before Sending a Fax to the Fax Server

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

To send a document to the fax server, the correct syntax for that server must be used. The destination fax number must be sent with a prefix and a suffix that match the parameters used by the fax server. In most cases, the syntax for the prefix is "fax=" and the syntax for the suffix would be the domain name of the fax server email gateway. The suffix must also include the "@" symbol at the beginning of the suffix. The prefix and the suffix information must be stored in the machine before you can use the Fax to Server function. Destination fax numbers can be saved in the address book or entered using the dial pad (up to 40-digit numbers). For example: if you wanted to send a document to a destination fax number of 123-555-0001, use the following syntax:

Prefix
Suffix

Destination fax number

 Your fax server application must support an email gateway.

Change LDAP Configuration Using Web Based Management

Use Web Based Management to configure your LDAP settings in a web browser.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

3. Select the **LDAP** checkbox, and then click **Submit**.
4. Restart your Brother machine to activate the configuration.
5. On your computer, in Web Based Management, click **Address Book > LDAP** in the left navigation bar.

- **LDAP Search**
- **LDAP Server Address**
- **SSL/TLS**
- **Port**
- **Authentication**
- **Username**

This selection will be available depending on the authentication method used.

- **Password**

This selection will be available depending on the authentication method used.

- If the LDAP server supports Kerberos authentication, we recommend selecting Kerberos for the Authentication settings. It provides strong authentication between the LDAP server and your machine.
- You must configure the SNTP protocol (network time server), or you must set the date, time and time zone correctly on the control panel for Kerberos authentication.

- **Kerberos Server Address**

This selection will be available depending on the authentication method used.

- **Search Root**
- **Timeout for LDAP**
- **Attribute of Name (Search Key)**
- **Attribute of E-mail**
- **Attribute of Fax Number**

6. When finished, click **Submit**. Make sure the **Status** field reads **OK**.

Perform an LDAP Search Using Your Machine's Control Panel

When you have configured LDAP settings, you can use the LDAP search feature to find fax numbers or email addresses to use for:

- Sending a Fax (not available for DCP models)
- Sending an Internet Fax (I-Fax) (not available for DCP models)
- Scanning to Email Server

- The LDAP feature supports LDAPv3.
- You may need to use Kerberos Authentication or Simple Authentication to connect to your LDAP server, depending on the security policy set by your network administrator.
- You must configure the SNTP protocol (network time server), or you must set the date, time and time zone correctly on the control panel for Kerberos authentication.

1. Press  to search.
2. Enter the initial characters for your search using the LCD.
3. Press [OK].

The LDAP search result will be shown on the LCD; the  icon appears before the fax number (local) or the email (local) address book search results.

If there is no match on the server or in the local address book, the LCD displays [Results cannot be found.] for about 60 seconds.

4. Swipe up or down or press ▲ or ▼ to display the name you want.
5. Press the name.
To view the details of the name, press [Detail].
6. If the result includes more than one fax number or email address, the machine will prompt you to select just one. Press [Apply]. Do one of the following:
 - If you are sending a fax or an I-Fax, press [Fax Start].
 - If you are scanning to the Email Server, load your document, press [Next], and then press [Start].

Configure the SNTP Protocol Using Web Based Management

Configure the SNTP protocol to synchronise the time the machine uses for authentication with the time kept by the SNTP time server.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

3. Select the **SNTP** checkbox to activate the settings.
4. Click **Submit**.
5. Restart your Brother machine to activate the configuration.
6. Next to the SNTP checkbox, click **Advanced Settings**.
7. Configure the settings.

Option	Description
Status	Displays whether the SNTP protocol is enabled or disabled.
Synchronization Status	Confirm the latest synchronisation status.
SNTP Server Method	Select AUTO or STATIC . <ul style="list-style-type: none">• AUTO If you have a DHCP server on your network, the SNTP server will obtain the address from that server automatically.• STATIC Type the address you want to use.
Primary SNTP Server Address Secondary SNTP Server Address	Type the server's address (up to 64 characters). The secondary SNTP server's address is used as a backup to the primary SNTP server's address. If the primary server is unavailable, the machine will contact the secondary SNTP server.
Primary SNTP Server Port Secondary SNTP Server Port	Type the port number (1-65535). The secondary SNTP server port is used as a backup to the primary SNTP server port. If the primary port is unavailable, the machine will contact the secondary SNTP port.
Synchronization Interval	Type the number of hours between server synchronisation attempts (1-168 hours).

8. Click **Submit**.

Forward Incoming Faxes to a Network Destination

Related Models: MFC-L8730CDW/MFC-L8970CDW/MFC-EX570

Set up a profile to forward incoming faxes directly to a folder on your server.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Administrator > Network Profile**.

If the left navigation bar is not visible, start navigating from ☰.

3. Click the protocol option next to the Profile number.
4. Select your server type in the **Protocol** field, and then click **Submit**.
5. Set up the profile for your server, using one of the following tables:

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

FTP

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Port Number	Change the Port Number setting used to access the FTP server. The default setting is port 21. In most cases, this setting does not need to be changed.
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the FTP server.
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
SSL/TLS	Set the SSL/TLS option to forward incoming faxes securely using SSL/TLS communication. Change the CA Certificate setting, if needed.
Store Directory	Type the path (up to 255 characters) to the folder on the FTP server where you want to forward incoming faxes. Do not type a slash mark at the beginning of the path.
Passive Mode	Set the Passive Mode option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases, this setting does not need to be changed.

SFTP

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the SFTP server.
Auth. Method	Select Password or Public Key .
Password	When you select Password for the Auth. Method option, type the password (up to 32 characters) associated with the user name you

Option	Description
	typed in the Username field. Type the password again in the Retype password field.
Client Key Pair	When you select Public Key for the Auth. Method option, select the authentication type.
Server Public Key	Select the authentication type.
Store Directory	Type the path (up to 255 characters) to the folder on the SFTP server where you want to forward incoming faxes. Do not type a slash mark at the beginning of the path.
Port Number	Change the Port Number setting used to access the SFTP server. The default setting is port 22. In most cases, this setting does not need to be changed.

Network

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Network Folder Path	Type the path to the folder on the CIFS server where you want to forward incoming faxes.
Auth. Method	To set your authentication method, select Auto , Kerberos , or NTLMv2 .
Username	Type a user name (up to 96 characters) that has permission to write data to the folder specified in the Network Folder Path field. If the user name is part of a domain, type the user name in one of the following styles: user@domain domain\user
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
Kerberos Server Address	When you select Kerberos for the Auth. Method option, you must type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).

You must configure the SNTP (network time server) or you must set the date, time and time zone correctly on the control panel. The time must match the time used by the Kerberos Server and CIFS Server.

SharePoint

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
SharePoint Site Address	Copy and paste the full destination address shown in the address bar of your browser (for example: http://SharePointSiteAddress/Shared%20Documents/Forms/AllItems.aspx) or the IP address (for example: http://192.168.0.1/Shared%20Documents/Forms/AllItems.aspx).
SSL/TLS	If the address in the SharePoint Site Address field starts with "https://", you can verify the server certificate by selecting the Verify Server Certificate checkbox.
Auth. Method	To set your authentication method, select Auto , NTLMv2 , Kerberos , or Basic . If you choose Auto , the authentication method will be detected automatically.
Username	Type the user name (up to 96 characters) of a user that has permission to write data to the folder specified in the SharePoint Site Address

Option	Description
	field. If the user name is part of a domain, enter the user name in one of the following styles: <ul style="list-style-type: none"> • user@domain • domain\user
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
Kerberos Server Address	When you select Kerberos for the Auth. Method option, you must type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).

6. Click **Submit**.
7. To set the Fax Forward feature, in the left navigation bar, click **Fax > Remote Fax Options**.
8. Select **Forward to Network** from the **Fwd/Store/Cloud/Network** drop-down list.
9. Select the file type you want to use.
10. To print a backup copy of incoming faxes, select **On** for **Backup print**.
11. Select the profile you want to use from the **Network Profile** drop-down list.
12. Type a three-digit Remote Access Code in the **Remote Access Code** field, if needed.

- You can use the numbers 0 through 9, *, or # for the Remote Access Code.
- The Remote Access Code must be different from the remote codes for the Fax features.

13. Click **Submit**.

Gigabit Ethernet (Wired Network Only)

Your machine supports 1000BASE-T Gigabit Ethernet. To connect to a 1000BASE-T Gigabit Ethernet Network, you must set the machine's Ethernet link mode to Auto from the machine's control panel or Web Based Management (web browser).

Use a Category 5e (or greater) network cable. The machine can automatically negotiate the highest supported network speed, for example: to achieve 1000BASE-T network speeds, all connecting infrastructure, including network switches and cables must also support 1000BASE-T speeds. Otherwise the machine will communicate at either 10BASE-T or 100BASE-TX.

Brother Web Connect Overview

Certain websites provide services that allow users to upload and view images and files on the websites. Your Brother machine can scan images and upload them to these services, and also download and print images that are already uploaded to these services.

1. Printing
2. Scanning
3. Photos, images, documents, and other files
4. Web Service

To use Brother Web Connect, your Brother machine must be connected to a network that has access to the Internet, through either a wired or wireless connection.

For network setups that use a proxy server, the machine must also be configured to use a proxy server. If you are unsure of your network configuration, check with your network administrator.

A proxy server is a computer that serves as an intermediary between computers without a direct Internet connection, and the Internet.

Online Services Used with Brother Web Connect

Use Brother Web Connect to access services from your Brother machine.

To use Brother Web Connect, you must have an account with the online service you want to use.

- Google Drive™
- Evernote®
- Dropbox
- OneDrive
- Box
- OneNote
- SharePoint Online

For more information about any of these services, refer to the respective service's website.

The following table describes which file types can be used with each Brother Web Connect feature:

Accessible Services	Google Drive™ Evernote® Dropbox OneDrive Box OneNote SharePoint Online
Upload scanned images	JPEG PDF ¹ DOCX XLSX PPTX TIFF
Download and print images ²	JPEG PDF DOCX XLSX PPTX
FaxForward to the online services (available only for certain models)	JPEG PDF TIFF

¹ For uploading scanned images, PDF includes Searchable PDF, Signed PDF, Secure PDF, PDF/A and High Compression PDF.

² DOC/XLS/PPT formats are also available for downloading and printing images.

(For Hong Kong, Taiwan and Korea)

Brother Web Connect supports only file names written in English. Files named in the local language will not be downloaded.

Brother Web Connect Setup Overview

Configure the Brother Web Connect settings using the following procedure:

Step 1: Create an account with the service you want to use.

Access the service's website using a computer and create an account. (If you already have an account, there is no need to create an additional account.)

1. User registration
2. Web Service
3. Obtain account

Step 2: Apply for Brother Web Connect access.

Start Brother Web Connect access using a computer and obtain a temporary ID.

1. Enter account information
2. Brother Web Connect application page
3. Obtain temporary ID

Step 3: Register your account information on your machine so you can access the service you want to use.

Enter the temporary ID to enable the service on your machine. Specify the account name as you would like it to be displayed on the machine, and enter a PIN if you would like to use one.

1. Enter temporary ID
2. Web Service

Your Brother machine can now use the service.

Apply for Brother Web Connect Access

To use Brother Web Connect to access online services, you must first apply for Brother Web Connect access using a computer that has the Brother Software installed.

1. Access the Brother Web Connect application website:

Option	Description
Windows	Launch  (Brother Utilities), and then click the drop-down list and select your model name (if not already selected). Click Do More in the left navigation bar, and then click Brother Web Connect .
	 You can also access the website directly: Type bwc.brother.com into your web browser's address bar.
Mac	Type bwc.brother.com into your web browser's address bar.

The Brother Web Connect page launches.

2. Select the service you want to use.
3. Follow the on-screen instructions and apply for access.

 When using SharePoint Online, follow the on-screen instructions to register a document library.

When finished, your temporary ID appears.

Get connected with Brother Web Connect

Finished the registration.

Please enter the following temporary ID on the LCD screen of your machine.

Temporary ID (11 digits)

XXXXXXXXXXXX

NOTE : The temporary ID will expire in 24 hours.

4. Make a note of your temporary ID as you will need it to register accounts to the machine. The temporary ID is valid for 24 hours.
5. Close the web browser.

Now that you have a Brother Web Connect access ID, you must register this ID on your machine, and then use your machine to access the web service you want to use.

Register an Account on Your Brother Machine for Brother Web Connect

You must enter your Brother Web Connect account information and configure your machine so that it can use Brother Web Connect to access the service you want.

- You must apply for Brother Web Connect access to register an account on your machine.
- Before you register an account, confirm that the correct date and time are set on the machine.

1. Swipe to display the [Web] option.
2. Press [Web].

- If the information regarding the Internet connection appears on the machine's LCD, read the information and press [OK]. If you want to display this information again, press [Yes].
- Occasionally, updates or announcements about Brother Web Connect's features will appear on the LCD. Read the information, and then press [OK].

3. If the information regarding licence agreement appears, make your selection and follow the on-screen instructions.
4. Select the service with which you want to register.
5. Press the service name.
6. If information regarding Brother Web Connect appears, press [OK].
7. Press [Register/Delete Account].
8. Press [Register Account].
The machine will prompt you to enter the temporary ID you received when you applied for Brother Web Connect access.
9. Press [OK].
10. Enter the temporary ID using the LCD.
11. Press [OK].

An error message will appear on the LCD if the information you entered does not match the temporary ID you received when you applied for access, or if the temporary ID has expired. Enter the temporary ID correctly, or apply for access again to receive a new temporary ID.

The machine will prompt you to enter the account name that you want to be displayed on the LCD.

12. Press [OK].
13. Enter the name using the LCD.
14. Press [OK].
15. Do one of the following:
 - To set a PIN for the account, press [Yes]. (A PIN prevents unauthorised access to the account.) Enter a four-digit number, and then press [OK].
 - If you do not want to set a PIN, press [No].
16. When the account information you entered appears, confirm that it is correct.
17. Press [Yes] to register your information as entered.
18. Press [OK].
19. Press .

Registration is complete and your machine can now access the service.

Replace Supplies

You must replace supplies when the machine indicates that the life of the supply is over.

The toner cartridge and drum unit are two separate supplies. Make sure both are installed as an assembly. The product code of supplies may vary depending on the country.

IMPORTANT

To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

Toner Cartridge

Drum Unit

Belt Unit

Waste Toner Box

Paper Feeding Kit for the Multi-purpose (MP) Tray

NOTE

- Be sure to seal the used supplies tightly in a bag so that toner powder does not spill out of the cartridge.
- Visit go.brother/original for instructions on how to return your used supplies to the Brother collection and recycling program. If your local Brother office does not have the collection program yet, or you choose not to return your used supply, discard the used supply according to local regulations, keeping it separate from domestic waste. If you have questions, contact your local waste disposal office.
- We recommend placing both the new and the used supplies on a piece of paper to prevent accidentally spilling or scattering the contents.
- Using paper that is not a direct equivalent for a recommended print media may reduce the life of supplies and machine parts.
- The projected life for each of the toner cartridges is based on ISO/IEC 19798. Frequency of replacement will vary depending on the print volume, percentage of coverage, types of media used, and powering on/off the machine.
- Frequency of replacing supplies except toner cartridges will vary depending on the print volume, types of media used, and powering on/off the machine.
- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, immediately wipe or wash it off with cold water.

- DO NOT turn the waste toner box upside down, otherwise the toner may spill out.
- DO NOT touch the IC chip surfaces on the toner cartridge and the drum unit. Contamination and damage may interfere with the detection of each unit.

Replace the Toner Cartridge

Before starting the replacement procedure, see *Related Information: Replace Supplies*.

1. Make sure the machine is turned on.
2. Press the front cover release button and open the front cover.

3. Hold the drum unit's green labeled handle. Pull the drum unit out of the machine until it stops.

IMPORTANT

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner.

4. Hold the handle of the toner cartridge and pull the toner cartridge up and out of the drum unit. Repeat this for all toner cartridges.

5. Clean the corona wire inside the drum unit by gently sliding the green tab from left to right and right to left several times. Repeat this for all the corona wires.

 To avoid poor print quality, be sure to lock the green tab into the home position (1), flush left with the left side of the drum.

6. Unpack the new toner cartridge.
7. Remove the protective materials.

8. Insert the toner cartridge into the drum unit. Make sure that you match the toner cartridge colour to the same colour label on the drum unit. Repeat this for all toner cartridges.

- BK: Black
- C: Cyan
- M: Magenta
- Y: Yellow

 Make sure you put the toner cartridge in correctly or it may separate from the drum unit.

9. Using the green labeled handle, push the drum unit back into the machine until it locks in place.

10. Close the machine's front cover.

- After replacing a toner cartridge, **DO NOT** turn the machine off or open the front cover until the machine's display returns to Ready Mode.
- The toner cartridge that comes with your Brother machine is an Inbox toner cartridge.
- We recommend keeping a new toner cartridge ready for use when you see the Toner Low warning.
- **DO NOT** unpack the new toner cartridge until you are ready to install it.
- If a toner cartridge is left unpacked for a long time, the toner life will be shortened.
- We recommend using genuine Brother supplies to ensure stable print quality and performance. Although not all non-genuine supplies may cause quality issues, it is possible that some may adversely affect print quality or cause machine malfunction. Brother may charge for repairing your machine if it is proven that non-genuine supplies caused the damage, even if the machine is still covered by the warranty.

Related Information

- [Replace Supplies](#)

Replace the Drum Unit

Before starting the replacement procedure, see *Related Information: Replace Supplies*.

1. Make sure the machine is turned on.
2. Press the front cover release button and open the front cover.

3. Hold the drum unit's green labeled handle. Pull the drum unit out of the machine until it stops.

IMPORTANT

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner.

4. Holding the green labeled handles of the drum unit, lift the front of the drum unit and remove it from the machine.

IMPORTANT

Hold the handles of the drum unit when you carry it. DO NOT hold the sides of the drum unit.

5. Unpack the new drum unit.
6. Remove the blue tape from the back of the drum unit, and then remove the protective cover.

7. Remove the protective cover under the drum unit.

8. Hold the handle of the toner cartridge and pull the toner cartridge up and out of the drum unit. Repeat this for all toner cartridges.

9. Reinsert the toner cartridge into the new drum unit. Make sure that you match the toner cartridge colour to the same colour label on the drum unit. Repeat this for all toner cartridges.

- BK: Black
- C: Cyan
- M: Magenta
- Y: Yellow

Make sure you put the toner cartridge in correctly or it may separate from the drum unit.

10. Gently slide the drum unit into the machine until it stops.

11. Using the green labeled handle, push the drum unit back into the machine until it locks in place.

12. Close the machine's front cover.

NOTE

- Drum wear and tear occurs due to use and rotation of the drum and interaction with paper, toner, and other materials in the paper path. In designing this product, Brother decided to use the number of

rotations of the drum as a reasonable determinant of the drum life. When a drum reaches the factory-established rotation limit corresponding to the rated page yield, the product's LCD will advise you to replace the drum. The product will continue to function; however, print quality may not be optimal.

- If an unpacked drum unit is placed in direct sunlight (or artificial light for long periods of time), the unit may be damaged.
- There are many factors that determine the actual drum life, such as the temperature, humidity, type of paper, type of toner used and so on. Under ideal conditions, the average drum life is estimated at:
 - Approximately 30,000 pages based on one page per job (A4/letter single-sided pages)
 - Approximately 50,000 pages based on three pages per job (A4/letter single-sided pages)

The number of pages may be affected due to a variety of factors including but not limited to media type and media size.

Because we have no control over the many factors that determine the actual drum life, we cannot guarantee a minimum number of pages that will be printed by your drum.

- The machine should be used only in a clean, dust-free environment with adequate ventilation.

We recommend using genuine Brother supplies to ensure stable print quality and performance. Although not all non-genuine supplies may cause quality issues, it is possible that some may adversely affect print quality or cause machine malfunction. Brother may charge for repairing your machine if it is proven that non-genuine supplies caused the damage, even if the machine is still covered by the warranty.

Replace the Belt Unit

1. Make sure the machine is turned on.
2. Press the front cover release button and open the front cover.

3. Hold the drum unit's green labeled handle. Pull the drum unit out of the machine until it stops.

IMPORTANT

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner.

4. Holding the green labeled handles of the drum unit, lift the front of the drum unit and remove it from the machine.

IMPORTANT

Hold the handles of the drum unit when you carry it. DO NOT hold the sides of the drum unit.

5. Hold the handle of the belt unit with both hands and lift the belt unit up, then pull it out.

6. Unpack the new belt unit and install it in the machine. Make sure the belt unit is level and fits firmly into place.

7. Gently slide the drum unit into the machine until it stops.

-
- Using the green labeled handle, push the drum unit back into the machine until it locks in place.

- Close the machine's front cover.

Reset the Belt Unit Counter

- Make sure the machine is turned on.
- Press and hold  (Toner) for about five seconds.
- Press [Belt].
- Press [Yes].

Clean the Machine

Clean the outside and inside of the machine regularly with a dry, lint-free cloth.

When you replace the toner cartridge or the drum unit, make sure you clean the inside of the machine. If printed pages are stained with toner, clean the inside of the machine with a dry, lint-free cloth.

WARNING

DO NOT use flammable substances, any type of spray, or an organic solvent/liquid containing alcohol or ammonia to clean the inside or outside of the product. Doing so could cause a fire. Instead, use only a dry, lint-free cloth.

IMPORTANT

- DO NOT use isopropyl alcohol to remove dirt from the control panel. It may crack the panel.
- To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

Toner Cartridge

Drum Unit

DO NOT touch the IC chip surfaces on the toner cartridge and the drum unit. Contamination and damage may interfere with the detection of each unit.

-

Clean the Drum Unit

- If your printout has black or white dots or other repeating marks at 75 mm intervals, the drum may have foreign material, such as glue from a label, stuck on the drum surface.
- Before starting the cleaning procedure, see *Related Information: Clean the Machine*.

1. Make sure the machine is in Ready Mode.
2. Press  [Settings] > [All Settings] > [Print Reports] > [Drum Dot Print].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

3. Press [Yes].
The machine prints the Drum Dot Check Sheet.
4. Press .
5. Press and hold  to turn the machine off.
6. Press the front cover release button and open the front cover.

7. Hold the drum unit's green labeled handle. Pull the drum unit out of the machine until it stops.

IMPORTANT

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner.

8. Holding the green labeled handles of the drum unit, lift the front of the drum unit and remove it from the machine.

IMPORTANT

Hold the handles of the drum unit when you carry it. DO NOT hold the sides of the drum unit.

9. Hold the handle of the toner cartridge and pull the toner cartridge up and out of the drum unit. Repeat this for all toner cartridges.

10. Turn the drum unit over by holding the green labeled handles. Make sure that the drum unit gears (1) are on the side shown in the illustration.

11. Use the column numbers next to the drum roller to find the mark. For example, a cyan dot in column 2 on the check sheet would mean that there is a mark in the "2" region of the cyan drum.

- BK: Black
- C: Cyan
- M: Magenta
- Y: Yellow

12. Hold the drum unit frame with both hands, place your thumb on the drum unit gear, and roll the drum towards you by hand while looking at the surface of the suspected area.

To avoid print quality problems, DO NOT touch any surface of the drum rollers except the drum unit gear.

13. Wipe the surface of the drum gently with a dry cotton swab until the mark on the surface comes off.

NOTE

DO NOT clean the surface of the photosensitive drum with a sharp object or any liquids.

14. Turn the drum unit over by holding the green labeled handles.

15. Reinsert the toner cartridge into the drum unit. Make sure that you match the toner cartridge colour to the same colour label on the drum unit. Repeat this for all toner cartridges.

- BK: Black
- C: Cyan
- M: Magenta
- Y: Yellow

Make sure you put the toner cartridge in correctly or it may separate from the drum unit.

16. Gently slide the drum unit into the machine until it stops.

17. Using the green labeled handle, push the drum unit back into the machine until it locks in place.

18. Close the machine's front cover.

19. Press  to turn the machine on.

Reset Functions Overview

The following reset functions are available:

Unplug the interface cable before you choose Network Settings Reset function, All Settings Reset function or Factory Reset function.

1. Machine Reset

Reset all the machine's settings that you have changed, such as Date and Time and Ring Delay.

The following will remain:

- The Address Book, fax data, and Call history (For models with facsimile function)
- The administrator password
- Network settings

2. Network Settings Reset (For Network Models)

Reset the print server to its default factory settings (including all IP Address information except the administrator password).

You can reset the administrator password using the All Settings Reset option.

3. Address Book and Fax Settings Reset

This function resets the following settings:

The following settings, with the exception of the Address Book and the Setting Lock password, apply to models with facsimile function.

- Address Book
(Addresses and Groups)
- Programmed fax jobs in the memory
(Delayed Fax)
- Station ID
(name and number)
- Coverpage Message
- Fax receive settings
(Remote Access Code, Fax Storage, Fax Forwarding, and PC-Fax Receive (Windows only))
- Report
(Transmission Verification Report / Address Book / Fax Journal)
- Setting Lock password (available models only)

4. All Settings Reset

Reset all the machine's settings back to the settings that were set at the factory.

All Settings Reset takes less time than Factory Reset.

5. Factory Reset

Use the All Setting Reset function to reset all of the machine's settings to the settings originally set at the factory.

Factory Reset takes more time than All Settings Reset.

We strongly recommend you perform this operation when you dispose of the machine.

Pack and Ship Your Machine

WARNING

- To prevent possible injuries, at least two people should lift the product by holding it at the front and back.
- When you move the machine, carry the machine as shown in the illustration.

- If the machine has Optional Tray(s) installed, remove the Optional Tray(s) BEFORE moving the machine. Attempting to move the machine without removing the Optional Tray(s) may cause injury to you or damage to the machine.
- Pack the Optional Tray(s) separately in the original carton with original packing material.

- If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier.
- The components included in the box may differ depending on your country.

1. Press and hold  to turn the machine off. Leave the machine off for at least 10 minutes to cool down.
2. Disconnect all the cables, and then unplug the power cord from the electrical socket.
3. Put the machine into the bag it originally came in.
4. Pack the machine in the original carton with the original packing material as shown below. (The original packing material may differ depending on your country.)

5. Close the carton and tape it shut.
6. If you have a Lower Tray, repack it as shown.

In the Event of Power Failure (Memory Storage)

Your menu settings are stored permanently, and in the event of a power failure will not be lost. Temporary settings (for example, Contrast, Overseas Mode) are lost.

During a power failure, the machine will retain the date and time and programmed fax timer jobs (for example, Delayed Fax) for approximately 60 hours. Other fax jobs in the machine's memory will not be lost.

Adjust the Machine's Volume

1. Do one of the following:

- For MFC models:

Press  [Settings] > [All Settings] > [General Setup] > [Volume].

- For DCP models:

Press  [Settings] > [All Settings] > [General Setup] > [Beep].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press one of the following options (MFC models):

(The options will vary depending on your machine.)

- [Ring]

Adjust the ring volume.

- [Beep]

Adjust the volume of the beep you hear when you press a button, make a mistake, or after you send or receive a fax.

- [Speaker]

Adjust the speaker volume.

3. Select the [Off], [Low], [Med] or [High] option, and then press the option you want.

4. Press .

Set Sleep Mode Countdown

The Sleep Mode (or Power Save Mode) setting can reduce power consumption. When the machine is in Sleep Mode, it acts as though it is turned off. The machine will wake up and start printing when it receives a print job or a fax. Use these instructions to set a time delay (countdown) before the machine enters Sleep Mode.

- You can choose how long the machine must be idle before it goes into Sleep Mode.
- The timer will restart if any operation is carried out on the machine, such as receiving a print job.

1. Press  [Settings] > [All Settings] > [General Setup] > [Ecology] > [Sleep Time].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Enter the length of time (maximum 50 minutes) the machine will remain idle before entering Sleep Mode, and then press [OK].

3. Press .

Related Information

About Deep Sleep Mode

If the machine is in Sleep Mode and does not receive any jobs for a certain length of time, the machine will automatically enter Deep Sleep Mode. The length of time is based on your specific model and settings.

Deep Sleep Mode uses less power than Sleep Mode.

The Deep Sleep Mode setting cannot be disabled due to environmental considerations.

Applicable Models	Machine's Control Panel in Deep Sleep Mode	Conditions That Will Wake the Machine

Set Auto Power Off Mode

If the machine does not receive any jobs for a certain length of time, based on your model and settings, the machine will automatically enter Power Off mode. The machine will not go into Power Off mode if it is connected to a network, a USB cable, NFC, Wi-Fi Direct, or a telephone line, or if there is any secure print data stored in its memory. The available features and interfaces vary depending on the model.

To start printing, press  on the control panel and then send a print job.

1. Press  [Settings] > [All Settings] > [General Setup] > [Ecology] > [Auto Power Off].

If your machine displays the [All Settings] menu on the Home screen, skip the [Settings] menu.

2. Press the [Off], [20 Mins], [1 hour], [2 hours], [4 hours] or [8 hours] option you want.
3. Press .

Add Shortcuts

You can add the Fax, Copy, Scan, Web Connect and Apps settings you use most frequently by saving them as your Shortcuts. Later you can press the Shortcut to apply these settings instead of manually re-entering them.

Some Shortcut menus are not available depending on your model.

These instructions describe how to add a Copy Shortcut. The steps for adding a Fax, Scan, Web Connect, or Apps Shortcut are very similar.

>> [DCP-L8630CDW/MFC-L8730CDW](#)

>> [MFC-L8970CDW/MFC-EX570](#)

DCP-L8630CDW/MFC-L8730CDW

1. Press [Shortcuts]. (If [Shortcuts] is displayed.)
2. Press a tab.
3. Press any to add a new Shortcut.
4. Press [Copy].
5. Press the copy preset you want.
6. Press [Options].
7. Swipe up or down or press or to display the available settings, and then press the setting you want to change.
8. Swipe up or down or press or to display the available options for the setting, and then press the option you want.
Repeat these two steps until you have selected all the settings and options you want.
9. When you have finished changing settings, press [OK]. (If the [OK] button is displayed.)
10. Press [OK].
11. Read and confirm the displayed list of settings you have selected, and then press [OK].
12. Enter a name for the Shortcut using the LCD, and then press [OK].

MFC-L8970CDW/MFC-EX570

1. Press [Shortcuts]. (If [Shortcuts] is displayed.)
2. Press [Copy].
3. Press > to access the preset copy settings.
4. Swipe up or down or press or to display the copy presets, and then press the copy preset you want.
5. Press [Options].
6. Swipe up or down or press or to display the available settings, and then press the setting you want to change.
7. Swipe up or down or press or to display the available options for the setting, and then press the option you want.
Repeat these two steps until you have selected all the settings and options you want.
8. Press [Save as Shortcut].
9. Read and confirm the displayed list of settings you have selected, and then press [OK].
10. Enter a name for the Shortcut using the LCD, and then press [OK].

Copies	-	-	Set the number of printed pages.
Orientation	-	-	Set pages to print in either portrait or landscape orientation.
Edge Emphasis	-	-	Make the text appear sharper.
Print Position	-	-	Access the Print Position setting menus.
Auto FF	-	-	Allow the machine to print any remaining data automatically.
HP LaserJet	Font No.	Font No.	Set the font number. This menu appears if a soft font is installed on your Brother machine.
		Soft Font No.	Set the soft font number. This menu appears if a soft font is installed on your Brother machine.
	Font Pitch	-	Set the font pitch. (Available only for certain fonts.)
	Font Point	-	Set the font size. (Available only for certain fonts.)
	Symbol Set	-	Select the symbol or character set.
	Table Print	-	Print the code table.
	Auto LF	-	ON: CR -> CR+LF, OFF: CR -> CR
	Auto CR	-	ON: LF -> LF+CR, FF -> FF+CR, or VT -> VT+CR OFF: LF -> LF, FF -> FF, or VT -> VT
	Auto WRAP	-	Select whether you want a line feed and carriage return when the carriage position reaches the right margin.
	Auto SKIP	-	Select whether you want a line feed and carriage return when the carriage position reaches the bottom margin.
	Left Margin	-	Set the left margin at column 0 to 70 columns at 1 cpi.
	Right Margin	-	Set the right margin at column 10 to 80 columns at 1 cpi.
	Top Margin	-	Set the top margin distance from the top edge of the paper.
	Bottom Margin	-	Set the bottom margin distance from the bottom edge of the paper.
Lines	-	Set the number of lines on each page.	
Tray Command	-	Select this setting if a tray mismatch appears when you use the HP drivers.	

Level 3	Level 4	Level 5	Descriptions	
BR-Script 3	Error Print	-	Choose whether the machine prints the error information when errors occur.	
	CAPT	-	Use CAPT (Colour Advanced Printing Technology) for optimal print quality when printing a PS file created by a non-Brother PS driver. Colours and photos appear clearer and more accurate. Print speed will be slower.	
PDF	Multiple Page	-	Set the page layout when printing multiple pages.	
	PDF Print Options	-	Set the PDF Print setting to print either comments (Markup) or stamps in the PDF file, along with the text.	
	PDF Fit to Page	-	Select if the machine scales or resizes the pages in the PDF file to fit the selected paper size.	
Carbon Menu	Carbon Copy	-	Enable or disable the Carbon Copy function.	
	Copies	-	Set the number of printed pages.	
	Copy1 Tray	-	Select the tray you use for Copy1.	
	Copy1 Stream	-	Select a stream for Copy1.	
	Copy2 Tray ... Copy8 Tray	-	Select the tray you use for Copy2 to Copy8.	
	Copy2 Stream ... Copy8 Stream	-	Select a stream for Copy2 to 8.	
Colour Correction	Correction Start	-	Perform colour calibration to check and correct colours, and then perform registration to align the print position of each colour.	
	Reset	-	Reset the calibration parameters to the default settings.	
	Auto Correction	-	Set the machine to perform Colour Calibration and Registration automatically.	
	Colour Settings	Setting Mode	-	Select whether to apply the colour print settings of the machine or the printer driver.
		Colour Mode	-	Select the colour mode.
		Improve Grey Colour	-	Turn on or off to improve the image quality of shaded areas.
		Enhance Black Printing	-	Turn on or off if a black graphic does not print correctly.
		Brightness	-	Adjust the brightness.
		Contrast	-	Adjust the contrast.
		Red	-	Adjust the red colour.
Green	-	Adjust the green colour.		
Blue	-	Adjust the blue colour.		
Reset Printer	-	-	Restore the machine settings to the factory settings.	

[Network]

[All Settings] > [Network]

Level 3	Level 4	Level 5	Level 6	Descriptions
Wired LAN	TCP/IP	Boot Method	-	Select the Boot method that best suits your needs.
		IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name. (up to 32 characters)
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	Primary	Specify the IP address of the primary WINS server.
			Secondary	Specify the IP address of the secondary WINS server.
		DNS Server	Primary	Specify the IP address of the primary DNS server.
			Secondary	Specify the IP address of the secondary DNS server.
	APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.	
	IPv6	-	Turn the IPv6 protocol on or off.	
	Ethernet	-	-	Select the Ethernet link mode.
	Wired Status	-	-	View the current wired status.
	MAC Address	-	-	View the machine's MAC address.
Set to Default	-	-	Restore the wired network settings to the factory settings.	
Wired Enable	-	-	Turn the Wired LAN interface on or off manually.	
WLAN (Wi-Fi)	Find Wi-Fi Network	-	-	Configure your wireless network settings manually.
	WPS/Push Button	-	-	Configure your wireless network settings using the one-button push method.
	WPS/PIN Code	-	-	Configure your wireless network settings using WPS with a PIN.
	Recover WLAN	-	-	Reset and restart your wireless network.
	WLAN Status	Status	-	View the current wireless network status.
		Signal	-	View the current wireless network signal strength.
		SSID	-	View the current SSID.
		Comm. Mode	-	View the current Communication mode.
	TCP/IP	Boot Method	-	Select the Boot method that best suits your needs.

Level 3	Level 4	Level 5	Level 6	Descriptions
WLAN (Wi-Fi)	TCP/IP	IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name. (up to 32 characters)
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	Primary	Specify the IP address of the primary WINS server.
			Secondary	Specify the IP address of the secondary WINS server.
		DNS Server	Primary	Specify the IP address of the primary DNS server.
			Secondary	Specify the IP address of the secondary DNS server.
	APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.	
	IPv6	-	Turn the IPv6 protocol on or off.	
	MAC Address	-	-	View the machine's MAC address.
Set to Default	-	-	Restore the wireless network settings to the factory settings.	
WLAN Enable	-	-	Turns the wireless interface on or off.	
Wi-Fi Direct	Manual	-	-	Configure your Wi-Fi Direct network settings manually.
	Group Owner	-	-	Set your machine as the Group Owner.
	Push Button	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.
	PIN Code	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.
	Device Information	Device Name	-	View your machine's device name.
		SSID	-	View the Group Owner's SSID.
		IP Address	-	View your machine's current IP Address.
	Status Information	Status	-	View the current Wi-Fi Direct network status.
		Signal	-	View the current Wi-Fi Direct network signal strength. When your machine acts as Group Owner, the LCD always indicates a strong signal.
	I/F Enable	-	-	Turn the Wi-Fi Direct connection on or off.
NFC	-	-	-	Turn the NFC function on or off.
E-mail/IFAX	Mail Address	-	-	Enter the email address.

Level 3	Level 4	Level 5	Level 6	Descriptions	
E-mail/IFAX	Setup Server	SMTP	Server	Enter the SMTP server name and address.	
			Port	Enter the SMTP port number.	
			Auth. for SMTP	Select the Security method for email notification.	
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.	
			Verify Cert.	Verify the SMTP Server Certificate automatically.	
		POP3/IMAP4	Protocol	Select the protocol for receiving an email from the server.	
			Server	Enter the server name and address.	
			Port	Enter the port number.	
			Mailbox Name	Enter the mailbox name. (Up to 255 characters)	
			Mailbox Password	Enter the password to log into the server. (Up to 128 characters)	
			Select Folder	Select the specified folder in the mailbox using the IMAP4 protocol.	
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.	
			Verify Cert.	Verify the SMTP Server Certificate automatically.	
			Auth. for POP3/IMAP4	Select the Security method for email notification.	
		Setup Mail RX	Auto Polling	Auto Polling	Check the server for new messages automatically.
				Poll Frequency	Set the interval for checking new messages on the server.
			Header	-	Select the contents of the email header to be printed.
			Del/Read Error Mail	-	The POP3 server deletes error emails automatically. The IMAP4 server deletes error emails automatically after you read them.
	Notification		-	Receive notification messages.	
	Setup Mail TX	Size Limit	Size Limit	Limit the size of email documents.	
			Maximum Size (MB)		
		Notification	-	Send notification messages.	
	Setup Relay	Relay Broadcast	-	Relay a document to another fax machine.	
		Relay Domain	Relay ##	Register the Domain name.	
		Relay Report	-	Print the relay Broadcast Report.	
	Report Setting	E-mail	XMIT Report	Select the initial setup for the Transmission Verification Report.	
		IFAX	XMIT Report		

Level 3	Level 4	Level 5	Level 6	Descriptions
E-mail/IFAX	Manual Receive	-	-	Check the POP3 or IMAP4 server for new messages manually.
Web Connect Settings	Proxy Settings	Proxy Connection	-	Change the Web connection settings.
		Address	-	
		Port	-	
		User Name	-	
	Password	-		
Web Based Mgmt	-	-	-	Enable or disable Web Based Management. If you enable this function, make sure you specify the connection method to use Web Based Management.
Fax to Server	Fax to Server	-	-	Store the prefix/suffix address for the fax server in your Brother machine.
	Prefix	-	-	
	Suffix	-	-	
IPsec	-	-	-	IPsec is an optional security feature of the IP protocol that provides authentication and encryption services. We recommend contacting your network administrator before changing this setting.
IP Filter	-	-	-	Restrict access to your machine by enabling the IP filter.
Global Detect	Allow Detect	-	-	Enable or disable Global Detect, a function that detects and notifies the user when the user unintentionally connects to a global network.
	Reject Access	-	-	Disable connections to the global network.
Network Reset	-	-	-	Restore all network settings back to the factory settings.

[Print Reports]

[All Settings] > [Print Reports]

Level 3	Level 4	Descriptions
XMIT Verify	View on LCD	Display Transmission Verification Reports about sent faxes.
	Print Report	Print a Transmission Verification Report of your last transmission.
Address Book	-	Print a list of recipients stored in the Address Book.
Fax Journal	-	Print a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit. RX means Receive.)
User Settings	-	Print a list of your User settings.
Printer Settings	-	Print a list of your Printer settings.
Network Configuration	-	Print a list of your Network settings.
Print File List	-	Print a list of data saved in the machine's memory.
Drum Dot Print	-	Print the Drum Dot Check Sheet.

Level 3	Level 4	Descriptions
WLAN Report	-	Print the wireless LAN connection results.

[Machine Info.]

[All Settings] > [Machine Info.]

Level 3	Level 4	Level 5	Descriptions
Serial No.	-	-	Check your machine's serial number.
Firmware Version	Main Version	-	Check your machine's firmware version.
	Security Version	-	
Firmware Update	-	-	Update your machine to the latest firmware.
Firmware Update Setup	Update Method	-	Set the days and times for automatic firmware updates.
	Update Days	-	
	Update Time	-	
Page Counter	Total	Colour	Check the total number of pages the machine has printed.
		Black and White	
	Fax	-	
	Copy	Colour	
		Black and White	
	Print	Colour	
		Black and White	
	Other	Colour	
Black and White			
Parts Life ¹	Drum	-	Display the remaining life of the drum unit.
	Belt	-	Display the remaining life of the belt unit.
	Fuser	-	Display the remaining life of the fuser unit.
	Laser Unit	-	Display the remaining life of the laser unit.
	PF Kit MP	-	Display the remaining life of PF Kit MP.
	PF Kit 1	-	Display the remaining life of PF Kit 1.
	PF Kit 2 ²	-	Display the remaining life of PF Kit 2.
	PF Kit 3 ²	-	Display the remaining life of PF Kit 3.

¹ The parts life is approximate and may vary by type of use.

² Available if the Optional Tray(s) is installed.

[Initial Setup]

[All Settings] > [Initial Setup]

Level 3	Level 4	Descriptions
Date & Time	Date	Add the date and time on the screen and in the headings of the faxes you send.

Level 3	Level 4	Descriptions
Date & Time	Time	Add the date and time on the screen and in the headings of the faxes you send.
	Clock Type	Select the time format (12-hour or 24-hour).
	Auto Daylight (Available only for certain countries)	Set the machine to change automatically for Daylight Saving Time.
	Time Zone	Set your time zone.
Station ID	Fax	Enter your name and fax number so it appears on each page you fax.
	Tel	
	Name	
Tone/Pulse (Available only for certain countries)	-	Select the dialling mode.
Dial Tone	-	Shorten the dial tone detection pause.
Phone Line Set	-	Select the telephone line type.
Compatibility	-	Adjust the equalisation for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
Reset	Machine Reset	Restore the machine settings that you have changed.
	Network Reset	Restore all network settings back to the factory settings.
	Address Book & Fax	Erase all stored phone numbers, fax data, and fax settings.
	All Settings	Restore all the machine's settings back to the factory settings and delete the personal data in the memory. You cannot see the data on the machine.
	Factory Reset	Restore all the machine settings back to the factory settings and delete the personal data in the machine's memory. We recommend using this menu option if you want to delete all the data from the machine.
Local Language (Available only for certain countries)	-	Change your LCD language.

	WLAN (Wi-Fi)	-	Access the WLAN setting menus.
Tray Setting	-	-	Access the tray setting menus.
Wi-Fi Direct	-	-	Access the Wi-Fi Direct setting menus.
Eco Mode	-	-	Turn the following machine settings on: <ul style="list-style-type: none"> • 2-sided Print: Long Edge (available for certain models) ¹ • Sleep Time: 0Min • Dim Timer: 10Secs • Quiet Mode: On ¹ • Toner Save: On ¹
All Settings	-	-	Configure the detailed settings.

¹ Changing this setting is possible only after you change certain machine settings in Web Based Management.

[General Setup]

[All Settings] > [General Setup]

Level 3	Level 4	Level 5	Level 6	Descriptions
Tray Setting	Paper Type	MP Tray	-	Select the paper type that matches the paper in the MP tray.
		Tray 1	-	Select the paper type that matches the paper in the standard paper tray.
		Tray 2 ¹	-	Select the paper type that matches the paper in the Optional Tray (Tray 2).
		Tray 3 ¹	-	Select the paper type that matches the paper in the Optional Tray (Tray 3).
	Paper Size	MP Tray	-	Select the paper size you loaded in the MP tray.
		Tray 1	-	Select the paper size you loaded in the standard paper tray.
		Tray 2 ¹	-	Select the paper size you loaded in the Optional Tray (Tray 2).
		Tray 3 ¹	-	Select the paper size you loaded in the Optional Tray (Tray 3).
	Copy	-	-	Select the tray you want to use for making a Copy.
	Print	-	-	Select the tray you want to use to Print.
	Print Position	MP Tray	X Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the MP tray horizontally from -500 (left) to +500 (right) dots when printing at 300 dpi.
			Y Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the MP tray vertically from -500 (up) to +500 (down) dots when printing at 300 dpi.
		Tray 1	X Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the standard paper tray horizontally from -500 (left) to +500 (right) dots when printing at 300 dpi.
			Y Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the standard paper tray vertically from -500 (up) to +500 (down) dots when printing at 300 dpi.
		Tray 2 ¹	X Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 2) horizontally from -500 (left) to +500 (right) dots when printing at 300 dpi.
			Y Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 2) vertically from -500 (up) to +500 (down) dots when printing at 300 dpi.
Tray 3 ¹		X Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 3) horizontally from -500 (left) to +500 (right) dots when printing at 300 dpi.	
		Y Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 3) vertically from -500 (up) to +500 (down) dots when printing at 300 dpi.	

Level 3	Level 4	Level 5	Level 6	Descriptions
Tray Setting	Skip Tray ¹	-	-	Select a specific tray to skip if you know it is loaded with the wrong size paper.
	Separator Tray ¹	-	-	Select the tray that contains the paper used as the separator paper, which is inserted between each print job.
	Paper Low Notice	Paper Low Notice	-	Select whether or not to display a message indicating the paper tray is nearly empty.
		Notice Level	-	Select the minimum paper level that will trigger the message.
	Check Paper	-	-	Select whether or not to display a message indicating you must check the paper type and paper size.
Beep	-	-	-	Adjust the beeper volume.
LCD Settings	Backlight	-	-	Adjust the brightness of the LCD backlight.
	Dim Timer	-	-	Set how long the LCD backlight stays on after you go back to your Main Home screen and other functions.
	Backlight Timer	-	-	Set how long the LCD backlight turns off after you go back to your Main Home screen and other functions.
Screen Settings	Home Screen	-	-	Set the Main Home screen.
	Scan Screen	-	-	Set the default Scan screen.
	Display Information	IP Address	-	Select whether or not to display your machine's IP Address on the Home screens.
Notice Settings	Scan Result (Skip Blank Page)	-	-	Displays the total scanned pages and skipped pages after scanning is completed.
Ecology	Eco Mode	-	-	Turn the following machine settings on: <ul style="list-style-type: none"> • 2-sided Print: Long Edge (available for certain models) ² • Sleep Time: 0Min • Dim Timer: 10Secs • Quiet Mode: On ² • Toner Save: On ²
	Toner Save	-	-	Increase the page yield of the toner cartridge.
	Sleep Time	-	-	Set how much time should pass before the machine enters Power Saving mode.
	Quiet Mode	-	-	Decrease printing noise.
	Auto Power Off	-	-	Set the number of minutes or hours before the machine enters Power Off mode.
Setting Lock	-	-	-	Restrict unauthorised users from changing the machine's settings.
Delete Storage	Macro ID	-	-	Delete the registered Macro data.
	Stream ID	-	-	Delete the registered Stream data.
	Font ID	-	-	Delete the registered Font data.
	Delete All	-	-	Restore your machine's Macro/Stream and Font data to the factory settings.

¹ Available if the Optional Tray(s) is installed.

² Changing this setting is possible only after you change certain machine settings in Web Based Management.

[Shortcut Settings]

[All Settings] > [Shortcut Settings]

Level 3	Level 4	Descriptions
(Select a Shortcut)	Rename	Change the shortcut name.
	Edit	Change the shortcut settings.

		Tray 3 ¹	X Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 3) horizontally from -500 (left) to +500 (right) dots when printing at 300 dpi.
			Y Offset	Adjust the print start position (usually at the upper left corner of a page) for the paper you loaded in the Optional tray (Tray 3) vertically from -500 (up) to +500 (down) dots when printing at 300 dpi.
		Skip Tray ¹	-	-
	Separator Tray ¹	-	-	Select the tray that contains the paper used as the separator paper, which is inserted between each print job.
	Paper Low Notice	Paper Low Notice	-	Select whether or not to display a message indicating the paper tray is nearly empty.
		Notice Level	-	Select the minimum paper level that will trigger the message.
	Check Paper	-	-	Select whether or not to display a message indicating you must check the paper type and paper size.
Volume	Ring	-	-	Adjust the ring volume.
	Beep	-	-	Adjust the beeper volume.
	Speaker	-	-	Adjust the speaker volume.
LCD Settings	Backlight	-	-	Adjust the brightness of the LCD backlight.
	Dim Timer	-	-	Set how long the LCD backlight stays on after you go back to your Main Home screen and other functions.
	Backlight Timer	-	-	Set how long the LCD backlight turns off after you go back to your Main Home screen and other functions.
Notice Settings	Document Alert	-	-	Select whether to alert you when the document is left on the scanner glass.
	Scan Result (Skip Blank Page)	-	-	Displays the total scanned pages and skipped pages after scanning is completed.
Ecology	Eco Mode	-	-	Turn the following machine settings on: <ul style="list-style-type: none"> • 2-sided Print:Long Edge ² • Sleep Time:0 Min • Dim Timer:10 Secs • Quiet Mode:On ² • Toner Save:On ²
	Toner Save	-	-	Increase the page yield of the toner cartridge.

Level 3	Level 4	Level 5	Level 6	Descriptions
Ecology	Sleep Time	-	-	Set how much time should pass before the machine enters Power Saving mode.
	Quiet Mode	-	-	Decrease printing noise.
	Auto Power Off	-	-	Set the number of minutes or hours before the machine enters Power Off mode.
Delete Storage	Macro ID	-	-	Delete the registered Macro data.
	Stream ID	-	-	Delete the registered Stream data.
	Font ID	-	-	Delete the registered Font data.
	Delete All	-	-	Restore your machine's Macro/Stream and Font data to the factory settings.
	Initialise USB Flash Drive (Available only when the USB flash drive is selected in the Job Save Location menu.)	-	-	Initialise the USB flash drive for USB Storage Print. Initialising the USB flash drive takes more than 40 minutes.

1 Available if the Optional Tray(s) is installed.

2 Changing this setting is possible only after you change certain machine settings in Web Based Management.

[Shortcut Settings]

[All Settings] > [Shortcut Settings]

Level 3	Level 4	Descriptions
(Select a Shortcut)	Rename	Change the shortcut name.
	Edit	Change the shortcut settings.
	Delete	Delete the shortcut.
	Register Card/NFC	Assign a shortcut to an IC card.
	Delete Card/NFC	Remove a shortcut from an IC card.

[Fax]

[All Settings] > [Fax]

Level 3	Level 4	Level 5	Descriptions	
Setup Receive	Ring Delay	-	Set the number of rings before the machine answers in Fax or Fax/Tel mode.	
	Receive Mode	-	Select the Receive Mode that best suits your needs.	
	F/T Ring Time	-	Set the length of the pseudo/double-ring time in Fax/Tel mode.	
	Fax Preview	-	View received faxes on the LCD.	
	Fax Detect	-	Receive fax messages automatically when you answer a call and hear fax tones.	
	Remote Codes	Remote Codes		Answer calls at an extension or external telephone and use codes to turn the Remote Codes on or off. You can personalise the codes.
		Act.Code		
Deact.Code				
Auto Reduction	-		Reduce each page of an incoming fax to fit on your paper.	

Level 3	Level 4	Level 5	Descriptions
Setup Receive	PC Fax Receive	-	Set the machine to send faxes to your computer. You can turn on the Backup Print safety feature.
	Memory Receive	Off	-
		Fax Forward	Set the machine to forward fax messages or to store incoming faxes in the memory (so you can retrieve them while you are away from your machine). If you select Fax Forward or Fax Storage, you can turn on the Backup Print safety feature.
		Fax Storage	
		Forward to Cloud	Forward incoming faxes to the online service.
	Forward to Network	Forward incoming faxes to a network destination.	
	Fax Rx Stamp	-	Print the received time and date on the top of incoming faxes.
2-sided	-	Print incoming faxes on both sides of the paper.	
Setup Send	Batch TX	-	Combine delayed faxes to the same fax number at the same time of day into one transmission.
	Coverpage Note	-	Set up your own comments for the fax cover page.
	Auto Redial	-	Set the machine to redial the last fax number after five minutes, if the fax did not go through because the line was busy. If the line is busy when you are sending a fax automatically, the machine redials up to three times at five-minute intervals.
	Destination	-	Set the machine to display the destination information on the LCD during fax dialling.
Report Setting	XMIT Report	-	Select the initial setup for the Transmission Verification Report.
	Journal Period	Journal Period	Set the interval for automatic printing of the Fax Journal.
		Time	If you select an option other than Off and Every 50 Faxes, you can set the time for the option.
		Day	If you select Every 7 Days, you can set the day of the week.
Print Document	-	-	Print incoming faxes stored in the machine's memory. All faxes are erased from the machine's memory after printing.
Remote Access	-	-	Set your own code for Remote Retrieval.
Dial Restriction	Dial Pad	-	Prevent dialling the wrong number by mistake or restrict dialling when using the method you selected.
	Address Book	-	
	Shortcuts	-	
	LDAP Server	-	
Remaining Jobs	-	-	Check which scheduled jobs are in the machine's memory and cancel selected jobs.
Miscellaneous	BT Call Sign (U.K. only)	-	Use with BT Call Sign.

[Printer]

[All Settings] > [Printer]

Level 3	Level 4	Level 5	Descriptions
Emulation	-	-	Select the emulation mode.
Quality	-	-	Select the print quality.
Print Options	Font List	HP LaserJet	Print a list of the machine's internal fonts.
		BR-Script 3	
	Test Print	-	Print a test page.
2-sided	2-sided Print	-	Enable or disable 2-sided printing and choose long edge or short edge.
	Single Image	-	For a print job where the last page is a one-sided image, select the 1-sided Feed option to reduce printing time. When you use letterhead or preprinted paper, you must select the 2-sided Feed option. If you select 1-sided Feed for letterhead or preprinted paper, the last page will be printed on the reverse side.
Auto Continue	-	-	Select if you want the machine to clear paper size errors or media type errors automatically, and use paper from other trays.
Output Colour	-	-	Set the output colour.
Paper Type	-	-	Set the paper type.
Paper Size	-	-	Set the paper size.
Copies	-	-	Set the number of printed pages.
Orientation	-	-	Set pages to print in either portrait or landscape orientation.
Edge Emphasis	-	-	Make the text appear sharper.
Print Position	-	-	Access the Print Position setting menus.
Auto FF	-	-	Allow the machine to print any remaining data automatically.
HP LaserJet	Font No.	Font No.	Set the font number. This menu appears if a soft font is installed on your Brother machine.
		Soft Font No.	Set the soft font number. This menu appears if a soft font is installed on your Brother machine.
	Font Pitch	-	Set the font pitch. (Available only for certain fonts.)
	Font Point	-	Set the font size. (Available only for certain fonts.)
	Symbol Set	-	Select the symbol or character set.
	Table Print	-	Print the code table.
	Auto LF	-	ON: CR -> CR+LF, OFF: CR -> CR
	Auto CR	-	ON: LF -> LF+CR, FF -> FF+CR, or VT -> VT+CR OFF: LF -> LF, FF -> FF, or VT -> VT

Level 3	Level 4	Level 5	Descriptions	
HP LaserJet	Auto WRAP	-	Select whether you want a line feed and carriage return when the carriage position reaches the right margin.	
	Auto SKIP	-	Select whether you want a line feed and carriage return when the carriage position reaches the bottom margin.	
	Left Margin	-	Set the left margin at column 0 to 70 columns at 1 cpi.	
	Right Margin	-	Set the right margin at column 10 to 80 columns at 1 cpi.	
	Top Margin	-	Set the top margin distance from the top edge of the paper.	
	Bottom Margin	-	Set the bottom margin distance from the bottom edge of the paper.	
	Lines	-	Set the number of lines on each page.	
	Tray Command	-	Select this setting if a tray mismatch appears when you use the HP drivers.	
BR-Script 3	Error Print	-	Choose whether the machine prints the error information when errors occur.	
	CAPT	-	Use CAPT (Colour Advanced Printing Technology) for optimal print quality when printing a PS file created by a non-Brother PS driver. Colours and photos appear clearer and more accurate. Print speed will be slower.	
PDF	Multiple Page	-	Set the page layout when printing multiple pages.	
	PDF Print Options	-	Set the PDF Print setting to print either comments (Markup) or stamps in the PDF file, along with the text.	
	PDF Fit to Page	-	Select if the machine scales or resizes the pages in the PDF file to fit the selected paper size.	
Carbon Menu	Carbon Copy	-	Enable or disable the Carbon Copy function.	
	Copies	-	Set the number of printed pages.	
	Copy1 Tray	-	Select the tray you use for Copy1.	
	Copy1 Stream	-	Select a stream for Copy1.	
	Copy2 Tray ...	-	Select the tray you use for Copy2 to Copy8.	
	Copy8 Tray	-		
	Copy2 Stream ... Copy8 Stream	-	Select a stream for Copy2 to 8.	
Colour Correction	Correction Start	-	Perform colour calibration to check and correct colours, and then perform registration to align the print position of each colour.	
	Reset	-	Reset the calibration parameters to the default settings.	
	Auto Correction	-	Set the machine to perform Colour Calibration and Registration automatically.	
	Colour Settings	Setting Mode	-	Select whether to apply the colour print settings of the machine or the printer driver.
		Colour Mode	-	Select the colour mode.

Level 3	Level 4	Level 5	Descriptions
Colour Correction	Colour Settings	Improve Grey Colour	Turn on or off to improve the image quality of shaded areas.
		Enhance Black Printing	Turn on or off if a black graphic does not print correctly.
		Brightness	Adjust the brightness.
		Contrast	Adjust the contrast.
		Red	Adjust the red colour.
		Green	Adjust the green colour.
		Blue	Adjust the blue colour.
Job Save Location	-	-	Select the location where you want to save print jobs.
Reset Printer	-	-	Restore the machine settings to the factory settings.

[Network]

[All Settings] > [Network]

Level 3	Level 4	Level 5	Level 6	Descriptions	
Wired LAN	TCP/IP	BOOT Method	-	Select the Boot method that best suits your needs.	
		IP Address	-	Enter the IP address.	
		Subnet Mask	-	Enter the Subnet mask.	
		Gateway	-	Enter the Gateway address.	
		Node Name	-	Enter the Node name. (up to 32 characters)	
		WINS Configuration	-	Select the WINS configuration mode.	
		WINS Server	Primary	Specify the IP address of the primary WINS server.	
			Secondary	Specify the IP address of the secondary WINS server.	
		DNS Server	Primary	Specify the IP address of the primary DNS server.	
			Secondary	Specify the IP address of the secondary DNS server.	
		APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.	
		IPv6	-	Turn the IPv6 protocol on or off.	
		Ethernet	-	-	Select the Ethernet link mode.
		Wired Status	-	-	View the current wired status.
	MAC Address	-	-	View the machine's MAC address.	
	Set to Default	-	-	Restore the wired network settings to the factory settings.	
Wired Enable	-	-	Turn the Wired LAN interface on or off manually.		
WLAN (Wi-Fi)	Find Wi-Fi Network	-	-	Configure your wireless network settings manually.	

Level 3	Level 4	Level 5	Level 6	Descriptions		
WLAN (Wi-Fi)	WPS/Push Button	-	-	Configure your wireless network settings using the one-button push method.		
	WPS/PIN Code	-	-	Configure your wireless network settings using WPS with a PIN.		
	Recover WLAN	-	-	Reset and restart your wireless network.		
	WLAN Status	Status	-	-	View the current wireless network status.	
		Signal	-	-	View the current wireless network signal strength.	
		SSID	-	-	View the current SSID.	
		Comm. Mode	-	-	View the current Communication mode.	
	TCP/IP	BOOT Method	-	-	Select the Boot method that best suits your needs.	
		IP Address	-	-	Enter the IP address.	
		Subnet Mask	-	-	Enter the Subnet mask.	
		Gateway	-	-	Enter the Gateway address.	
		Node Name	-	-	Enter the Node name. (up to 32 characters)	
		WINS Configuration	-	-	Select the WINS configuration mode.	
		WINS Server	Primary	-	-	Specify the IP address of the primary WINS server.
			Secondary	-	-	Specify the IP address of the secondary WINS server.
		DNS Server	Primary	-	-	Specify the IP address of the primary DNS server.
			Secondary	-	-	Specify the IP address of the secondary DNS server.
	APIPA	-	-	Set the machine to allocate the IP address from the link-local address range automatically.		
	IPv6	-	-	Turn the IPv6 protocol on or off.		
	MAC Address	-	-	View the machine's MAC address.		
Set to Default	-	-	Restore the wireless network settings to the factory settings.			
WLAN Enable	-	-	Turns the wireless interface on or off.			
Wi-Fi Direct	Manual	-	-	Configure your Wi-Fi Direct network settings manually.		
	Group Owner	-	-	Set your machine as the Group Owner.		
	Push Button	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.		
	PIN Code	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.		

Level 3	Level 4	Level 5	Level 6	Descriptions	
Wi-Fi Direct	Device Information	Device Name	-	View your machine's device name.	
		SSID	-	View the Group Owner's SSID.	
		IP Address	-	View your machine's current IP Address.	
	Status Information	Status	-	View the current Wi-Fi Direct network status.	
		Signal	-	View the current Wi-Fi Direct network signal strength. When your machine acts as Group Owner, the LCD always indicates a strong signal.	
I/F Enable	-	-	Turn the Wi-Fi Direct connection on or off.		
NFC	-	-	-	Turn the NFC function on or off.	
E-mail/IFAX	Mail Address	-	-	Enter the email address.	
	Setup Server	SMTP	Server	Enter the SMTP server name and address.	
			Port	Enter the SMTP port number.	
			Auth. for SMTP	Select the Security method for email notification.	
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.	
			Verify Cert.	Verify the SMTP Server Certificate automatically.	
		POP3/IMAP4	Protocol	Select the protocol for receiving an email from the server.	
			Server	Enter the server name and address.	
			Port	Enter the port number.	
			Mailbox Name	Enter the mailbox name. (Up to 255 characters)	
			Mailbox Password	Enter the password to log into the server. (Up to 128 characters)	
			Select Folder	Select the specified folder in the mailbox using the IMAP4 protocol.	
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.	
			Verify Cert.	Verify the SMTP Server Certificate automatically.	
			Auth. for POP3/IMAP4	Select the Security method for email notification.	
		Setup Mail RX	Auto Polling	Auto Polling	Check the server for new messages automatically.
				Poll Frequency	Set the interval for checking new messages on the server.
			Header	-	Select the contents of the email header to be printed.

Level 3	Level 4	Level 5	Level 6	Descriptions
E-mail/IFAX	Setup Mail RX	Del/Read Error Mail	-	The POP3 server deletes error emails automatically. The IMAP4 server deletes error emails automatically after you read them.
		Notification	-	Receive notification messages.
	Setup Mail TX	Size Limit	Size Limit	Limit the size of email documents.
			Maximum Size (MB)	
	Setup Relay	Notification	-	Send notification messages.
		Relay Broadcast	-	Relay a document to another fax machine.
		Relay Domain	Relay ##	Register the Domain name.
	Report Setting	Relay Report	-	Print the relay Broadcast Report.
		E-mail	XMIT Report	Select the initial setup for the Transmission Verification Report.
	IFAX	XMIT Report		
Manual Receive	-	-	Check the POP3 or IMAP4 server for new messages manually.	
Web Connect Settings	Proxy Settings	Proxy Connection	-	Change the Web connection settings.
		Address	-	
		Port	-	
		User Name	-	
		Password	-	
Web Based Mgmt	-	-	-	Enable or disable Web Based Management. If you enable this function, make sure you specify the connection method to use Web Based Management.
Fax to Server	Fax to Server	-	-	Store the prefix/suffix address for the fax server in your Brother machine.
	Prefix	-	-	
	Suffix	-	-	
IPsec	-	-	-	IPsec is an optional security feature of the IP protocol that provides authentication and encryption services. We recommend contacting your network administrator before changing this setting.
IP Filter	-	-	-	Restrict access to your machine by enabling the IP filter.
Global Detect	Allow Detect	-	-	Enable or disable Global Detect, a function that detects and notifies the user when the user unintentionally connects to a global network.
	Reject Access	-	-	Disable connections to the global network.
Network Reset	-	-	-	Restore all network settings back to the factory settings.

[Print Reports]

[All Settings] > [Print Reports]

[Initial Setup]

[All Settings] > [Initial Setup]

Level 3	Level 4	Descriptions
Date & Time	Date	Add the date and time on the screen and in the headings of the faxes you send.
	Time	
	Clock Type	Select the time format (12-hour or 24-hour).
	Auto Daylight (Available only for certain countries)	Set the machine to change automatically for Daylight Saving Time.
	Time Zone	Set your time zone.
Station ID	Fax	Enter your name and fax number so it appears on each page you fax.
	Tel	
	Name	
Tone/Pulse (Available only for certain countries)	-	Select the dialling mode.
Dial Tone	-	Shorten the dial tone detection pause.
Phone Line Set	-	Select the telephone line type.
Compatibility	-	Adjust the equalisation for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
Reset	Machine Reset	Restore the machine settings that you have changed.
	Network Reset	Restore all network settings back to the factory settings.
	Address Book & Fax	Erase all stored phone numbers, fax data, and fax settings.
	All Settings	Restore all the machine's settings back to the factory settings and delete the personal data in the memory. You cannot see the data on the machine.
	Factory Reset	Restore all the machine settings back to the factory settings and delete the personal data in the machine's memory. We recommend using this menu option if you want to delete all the data from the machine.
Local Language (Available only for certain countries)	-	Change your LCD language.

[Admin Settings]

[Admin Settings]

Level 2	Level 3	Level 4	Level 5	Descriptions	
Home Screen Settings	Icons	-	-	Delete icons, add icons, or move icons to other places on the Home screens.	
	Background Colour	-	-	Change the background colour on the touchscreen to White or Black.	
	Tabs	Rename	Tab 1 ... Tab 8		Change the name of the tabs.
		Main Home Screen	-		Set your Main Home screen.
	Display Information	IP Address	-		Select whether or not to display your machine's IP Address on the Home screens.
	Home Screen Settings Reset	-	-		Restore Home screen settings back to the factory settings.
Other Screen Settings	Copy Screen	-	-	Set the default Copy screen settings.	
	Scan Screen	-	-	Set the default Scan screen settings.	
Restriction Management	User Restriction Function	-	-	Enable or disable restriction functions, for example, Secure Function Lock.	
	Setting Lock	-	-	Restrict unauthorised users from changing the machine's settings.	
	Setting Lock Details	-	-	Select the specific machine settings you want to restrict unauthorised users from changing.	
Password	-	-	-	Register or change the password to log on to the Admin Settings menu.

Wired Network Setup

(Wired Network Setup)

Level 3	Descriptions
TCP/IP	Change the TCP/IP settings.
Ethernet	Select the Ethernet link mode.
Wired Status	View the current wired status.
MAC Address	View the machine's MAC address.
Set to Default	Restore the wired network settings to the factory settings.
Wired Enable	Turn the Wired LAN interface on or off manually.

Wi-Fi® Setup

(Wi-Fi® Setup)

Level 3	Descriptions
Find Wi-Fi Network	Configure your wireless network settings manually.
WPS/Push Button	Configure your wireless network settings using the one-button push method.
WPS/PIN Code ¹	Configure the wireless network settings using WPS with a PIN code.
Recover WLAN ¹	Reset and restart your wireless network.
WLAN Status ¹	Display the wireless network connection status.
TCP/IP ¹	Change the TCP/IP settings.
MAC Address ¹	Display your machine's MAC address.
Set to Default ¹	Restore your machine's wireless network settings to the factory settings.
WLAN Enable ¹	Turn the wireless interface on or off.

¹ Available after a Wi-Fi® connection has been configured.

[Toner]

Level 3	Level 4	Descriptions
Toner Life	-	View the approximate remaining toner life for each colour.
Test Print	-	Print a test page.
Colour Correction	Correction Start	Initiate colour calibration to check and correct colours.
	Reset	Reset the calibration parameters to the default settings.
Toner Cartridge Check	-	View the installed toner cartridge information on the LCD, for example, if the toner cartridge is genuine.

[Admin Settings]

Level 2	Descriptions
Admin Settings	Change the screen settings and restrict use of the machine.

[Fax] (When Fax Preview is Off)

Level 3	Level 4	Level 5	Level 6	Descriptions
Redial / Pause	-	-	-	Redial the last number called. When you are entering a fax or telephone number on the touchscreen, Redial changes to Pause on the LCD. Press Pause when you need a delay while dialling numbers, such as access codes and credit card numbers. You can also store a pause when you set up addresses.
Tel / R	-	-	-	Tel changes to R when PBX is selected as the telephone line type. You can use R to gain access to an outside line or to transfer a call to another extension when connected to a PBX.
Address Book	 (Search)	-	-	Search within the Address Book.
	Edit	Add New Address	Name	Store Address Book numbers, set up Group numbers for Broadcasting, change and delete Address Book numbers.
			Address	
		Setup Groups	Name	
			Add/Delete	
		Change	(Select Address)	
	Delete	(Select Address)		
(Select Address Book)	Apply	-	-	Start sending a fax using the Address Book.

Level 3	Level 4	Level 5	Level 6	Descriptions
Call History	Outgoing Call	(Select Outgoing Call)	Apply	Select a number from the Outgoing Call history, and then send a fax to it, add it to the Address Book, or delete it.
			Edit	
Fax Start	-	-	-	Send a fax.
Options	Fax Resolution	-	-	Set the resolution for outgoing faxes.
	Sender Subject	-	-	Edit the subject of an outgoing fax.
	Contrast	-	-	Adjust the contrast.
	2-sided Fax	-	-	Set the 2-sided scanning format.
	Glass Scan Size	-	-	Adjust the scan area of the scanner glass to the size of the document.
	Broadcasting	Add Number	Add Number	Send the same fax message to more than one fax number.
			Add from Address book	
			Search in Address book	
	Preview	-	-	Preview a fax message before you send it.
	Delayed Fax	Delayed Fax	-	Set the time of day the delayed faxes will be sent.
		Set Time	-	
	Real Time TX	-	-	Send a fax without using the memory.
	Coverpage Setup	Coverpage Setup	-	Set the machine to automatically send a pre-programmed cover page.
		Coverpage Note	-	
Total Pages		-		
Overseas Mode	-	-	Set to On if you have difficulty sending faxes overseas.	
Set New Default	-	-	Save your settings as the default.	
Factory Reset	-	-	Restore all settings back to the factory settings.	
Save as Shortcut	-	-	-	Save the current settings as a shortcut.

[Fax] (When Fax Preview is On)

[Fax] (When Fax Preview is On)

Change Machine Settings Using Web Based Management

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS).

- [What is Web Based Management?](#)
- [Access Web Based Management](#)
- [Change the Login Password Using Web Based Management](#)
- [Set Up Your Machine's Address Book Using Web Based Management](#)

What is Web Based Management?

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS).

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.
- Make sure your machine is On and connected to the same network as your computer, and that your network supports the TCP/IP protocol.

The screenshot displays the Brother Web Based Management interface. On the left is a dark blue sidebar with a back arrow at the top and a 'Logout' button. Below these are menu items: 'Home', 'Status' (highlighted in blue), 'Auto Refresh Interval', 'General', 'Address Book', 'Fax', 'Copy', 'Print', 'Scan', 'Administrator', 'Online Functions', and 'Network'. The main content area is white and features the 'brother' logo in the top right. The 'Status' section is titled 'Status' and includes: 'Device Status' showing 'Ready' in a green bar; 'Automatic Refresh' with radio buttons for 'Off' (selected) and 'On'; 'Toner Level' with four vertical bars for BK (black), C (cyan), M (magenta), and Y (yellow); 'Web Language' with a dropdown menu set to 'Auto'; and 'Device Location' with labels for 'Contact :' and 'Location :'. The 'Auto Refresh Interval' section is currently empty.

The actual screen may differ from the screen shown above.

Related Information

- [Change Machine Settings Using Web Based Management](#)

Access Web Based Management

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.
- We recommend using the HTTPS security protocol when configuring settings using Web Based Management. If you use HTTP when configuring settings using Web Based Management, follow the screen prompts to switch to a secure HTTPS connection.
- When you use HTTPS for Web Based Management configuration, your browser will display a warning dialog box. To avoid displaying the warning dialog box, you can install a self-signed certificate to use SSL/TLS communication. For more information, see the *Security Features Guide*.
- The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in. We recommend immediately changing the default password to protect your machine from unauthorised access.

You can also find the default password in the Network Configuration Report or on the Printer Settings page.

- >> [Access Web Based Management from your Web Browser](#)
- >> [Access Web Based Management from Brother iPrint&Scan \(Windows/Mac\)](#)
- >> [Access Web Based Management from Brother Utilities \(Windows\)](#)

Access Web Based Management from your Web Browser

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

You will find your machine's IP address in the Network Configuration Report.

See [Print the Network Configuration Report](#).

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter
- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef
- The NetBIOS name can be found in the Network Configuration Report or on the Printer Settings page.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. If you want to pin the navigation bar to the left side of the screen, click ☰ and then click 🌟.

You can now change the machine's settings.

If the machine is idle for a specified amount of time, the user is automatically logged out. Change the logout settings in the **Web Based Management Logout Time** menu.

Access Web Based Management from Brother iPrint&Scan (Windows/Mac)

1. Start Brother iPrint&Scan.

- Windows

Launch  (**Brother iPrint&Scan**).

- Mac

In the **Finder** menu bar, click **Go > Applications**, and then double-click the iPrint&Scan icon.

The Brother iPrint&Scan screen appears.

2. If your Brother machine is not selected, click the **Add Machine / Select your Machine** button, and then select your model name from the list. Click **OK**.

3. Click the **Supplies/Machine Settings** button.

If the **Supplies/Machine Settings** window appears, click the **All Settings** link.

Web Based Management appears.

4. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

5. If you want to pin the navigation bar to the left side of the screen, click  and then click .

You can now change the machine's settings.

- You can also access Web Based Management from Brother Mobile Connect for mobile devices.
- If the machine is idle for a specified amount of time, the user is automatically logged out. Change the logout settings in the **Web Based Management Logout Time** menu.

Access Web Based Management from Brother Utilities (Windows)

1. Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected).

2. Click **Tools** in the left navigation bar, and then click **Machine Settings**.

Web Based Management appears.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. If you want to pin the navigation bar to the left side of the screen, click  and then click .

You can now change the machine's settings.

If the machine is idle for a specified amount of time, the user is automatically logged out. Change the logout settings in the **Web Based Management Logout Time** menu.

If you change the protocol settings, you must restart the machine after clicking **Submit** to activate the configuration.

After configuring the settings, click **Logout**.

Change the Login Password Using Web Based Management

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in. We recommend immediately changing the default password to protect your machine from unauthorised access.

1. Start Web Based Management. See [Access Web Based Management](#).
2. In the left navigation bar, click **Administrator** > **Login Password**.

- The default password to manage this machine's settings is located on the back of the machine and marked "Pwd".
- If the left navigation bar is not visible, start navigating from ☰.

3. To change the password, type your current password in the **Enter Old Password** field.
4. Following the on-screen **Login Password** guidelines, type your new password in the **Enter New Password** field.
5. Retype the new password in the **Confirm New Password** field.
6. Click **Submit**.

You can also change the lockout settings in the **Login Password** menu.

Automatic Document Feeder (ADF)		Up to 80 sheets For best results we recommend: <ul style="list-style-type: none"> • Temperature: 20°C to 30°C • Humidity: 50% to 70% • Paper: 80 g/m² 		

1 Measured diagonally.

2 Measured when the machine is connected using the same network connection as the ENERGY STAR Ver. 3.2 test method.

3 Measured according to IEC 62301 Edition 2.0.

4 Power consumption varies slightly depending on the usage environment.

5 If fan motor is functioning: LpAm = 35 dB (A)

6 Measured in accordance with the method described in ISO 7779.

7 If fan motor is functioning: LWAc = 4.98 B (A)

Document Size Specification

Document Size	ADF Width	105 mm to 215.9 mm
	ADF Length	148 mm to 355.6 mm
	Scanner Glass Width	Up to 215.9 mm
	Scanner Glass Length	<ul style="list-style-type: none"> • (DCP-L8630CDW/MFC-L8730CDW) Up to 297 mm • (MFC-L8970CDW/MFC-EX570) Up to 355.6 mm

Print Media Specifications

Paper Input	Paper Tray (Standard)	Paper Type	Plain Paper, Letterhead, Coloured Paper, Thin Paper, Recycled Paper

		Maximum Paper Capacity	<ul style="list-style-type: none"> • LT-350CL Up to 250 sheets of 80 g/m² Plain Paper • LT-360CL Up to 520 sheets of 80 g/m² Plain Paper
Paper Output ²	Face Down Output Tray		Up to 150 sheets of 80 g/m ² Plain Paper (face-down delivery to the face-down output paper tray)
	Face Up Output Tray		One sheet (face up delivery to the face up output tray)
2-sided	Automatic 2-sided Printing	Paper Type	Plain Paper, Letterhead, Coloured Paper, Thin Paper, Recycled Paper, Glossy Paper
		Paper Size	A4, A4 Short (270 mm Paper)
		Paper Weight	60 to 105 g/m ²

- 1 (DCP-L8630CDW/MFC-L8730CDW) Maximum number of Lower Trays: Up to two LT-350CL Lower Trays.
(MFC-L8970CDW/MFC-EX570) Maximum number of Lower Trays: Up to two LT-350CL Lower Trays, or up to two LT-360CL Lower Trays, or a combination of one LT-350CL and one LT-360CL.
- 2 For labels, we recommend removing the printed sheets from the output paper tray immediately after they exit the machine to avoid the possibility of smudging.

Fax Specifications

NOTE

This feature is available for MFC models.

Compatibility		ITU-T Super Group 3
Coding System		MH / MR / MMR / JBIG
Modem Speed		33,600 bps (with Automatic Fallback)
2-sided Print Receiving		Yes
Automatic 2-sided Sending		Yes (from the ADF)
Scanning Width		Maximum 208 mm
Printing Width		Maximum 207.4 mm
Greyscale		8 bit / 256 levels
Resolution	Horizontal	203 dpi
	Vertical	Standard: 98 dpi Fine: 196 dpi Super fine: 392 dpi Photo: 196 dpi
Address Book		300 Locations
Groups		Up to 20
Broadcasting		350 Locations
Automatic Redial		3 times at 5-minute intervals
Memory Transmission		Up to 500 pages ¹
Out of Paper Reception		Up to 500 pages ¹

¹ 'Pages' refers to the 'ITU-T TestChart Document No.1' (a typical business letter, Standard resolution, JBIG code).

Copy Specification

Copy Width	Maximum 208 mm
Automatic 2-sided Copy	(MFC-L8730CDW/MFC-L8970CDW/MFC-EX570) Yes (from the ADF)
Sort Copy	Yes
Stack Copy	Up to 999 pages
Enlarge/Reduce	25 to 400% (in increments of 1%)
Resolution	Maximum 1200 x 600 dpi
First Copy Out Time ¹	Monochrome Less than 12.5 seconds
	Colour Less than 12.5 seconds

¹ From Ready Mode and standard tray.

Scanner Specifications

Colour / Black	Yes / Yes
TWAIN Compliant	Yes (Windows 10 / Windows 11)
WIA Compliant	Yes (Windows 10 / Windows 11)
Colour Depth	<ul style="list-style-type: none"> 48 bit colour Processing (Input) 24 bit colour Processing (Output)
Grey Scale	<ul style="list-style-type: none"> 16 bit colour Processing (Input) 8 bit colour Processing (Output)
Resolution ¹	<ul style="list-style-type: none"> Up to 19200 x 19200 dpi (interpolated) Up to 1200 x 1200 dpi (from Scanner Glass) Up to 600 x 600 dpi (from the ADF)
Scanning Width	Maximum 210 mm
Automatic 2-sided Scanning	(MFC-L8730CDW/MFC-L8970CDW/MFC-EX570) Yes (from the ADF)

¹ Maximum 600 x 600 dpi scanning with the WIA driver in Windows 10 and Windows 11.

Printer Specifications

Automatic 2-sided Print	Yes
Emulation	PCL6, BR-Script3, PDF Version 2.0
Resolution	600 x 600 dpi, 2,400 dpi class (2400 x 600) quality
Print Speed ^{1 2}	1-sided Print
	Monochrome Up to 33 pages/minute (Letter size) Up to 31 pages/minute (A4 size)
	Colour Up to 33 pages/minute (Letter size) Up to 31 pages/minute (A4 size)
	2-sided Print
	Monochrome Up to 21 sides per minute (Up to 10.5 sheets per minute) (Letter size) Up to 20 sides per minute (Up to 10 sheets per minute) (A4 size)
	Colour Up to 21 sides per minute (Up to 10.5 sheets per minute) (Letter size) Up to 20 sides per minute (Up to 10 sheets per minute) (A4 size)
First Print Time ^{3 4 5 6}	Monochrome Less than 9.9 seconds
	Colour Less than 9.9 seconds

¹ The print speed may change depending on the type of document you print.

² The print speed may be slower when the machine is connected by wireless LAN.

³ Printing from Ready mode and standard tray.

⁴ Length of time from when the machine is started until paper output is complete (except when the machine is turned on or when an error is fixed).

⁵ May vary when calibration or registration is in progress.

⁶ This applies when printing on A4- or Letter-size paper from the standard tray. However, the First Print Time could be longer depending on the paper size and the amount of print data.

Interface Specifications

USB ^{1 2}	Hi-Speed USB 2.0 Use a USB 2.0 interface cable (TypeA/B) that is no more than 2 metres long.
LAN	10Base-T/100Base-TX/1000Base-T ³
Wireless LAN	5 GHz IEEE 802.11a/n (Infrastructure Mode) IEEE 802.11a/n (Wi-Fi Direct) 2.4 GHz IEEE 802.11b/g/n (Infrastructure Mode) IEEE 802.11g/n (Wi-Fi Direct)
NFC ⁴ (MFC-L8730CDW/MFC-L8970CDW/ MFC-EX570)	Yes

¹ Your machine has a USB 2.0 Hi-Speed interface. The machine can also be connected to a computer that has a USB 1.1 interface.

² Third party USB hub devices are not supported.

³ Use a Category 5e (or greater) network cable.

⁴ When you connect an external IC card reader, use a HID class driver supported device.

Direct Print Feature Specifications

Compatibility	PDF version 2.0, JPEG, TIFF (scanned by Brother models), PRN-GDI (created by the machine's own printer driver), PRN-PS (created by the machine's own printer driver)
Interface	USB direct interface: Front x1, Rear x1 (MFC-L8970CDW/MFC-EX570)

Supported Protocols and Security Features

Supported protocols and security features may differ depending on the model.

Ethernet

10Base-T/100Base-TX/1000Base-T

Wireless LAN (5GHz)

IEEE 802.11a/n (Infrastructure Mode), IEEE 802.11a/n (Wi-Fi Direct)

Wireless LAN (2.4GHz)

IEEE 802.11b/g/n (Infrastructure Mode), IEEE 802.11g/n (Wi-Fi Direct)

Protocols (IPv4)

ARP, RARP, BOOTP, DHCP, APIPA (Auto IP), WINS/NetBIOS name resolution, DNS Resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, POP3, SMTP Client, IPP/IPPS, FTP Client and Server, CIFS Client, TELNET Server, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMP, Web Services (Print/Scan), SNTP Client, LDAP, LDAPS, IMAP4, Syslog

Protocols (IPv6)

NDP, RA, DNS resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, IPP/IPPS, POP3, SMTP Client, FTP Client and Server, CIFS Client, TELNET Server, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMPv6, Web Services (Print/Scan), SNTP Client, LDAP, LDAPS, IMAP4, Syslog

Network Security (Wired)

APOP, SMTP-AUTH, SSL/TLS (IPP, HTTP, SMTP, POP3, IMAP4, FTP, LDAP), SNMP v3, 802.1x (EAP-MD5, EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), OAuth (SMTP, POP3, IMAP4), Kerberos, IPsec

Network Security (Wireless)

APOP, SMTP-AUTH, SSL/TLS (IPP, HTTP, SMTP, POP3, IMAP4, FTP, LDAP), SNMP v3, 802.1x (EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), OAuth (SMTP, POP3, IMAP4), Kerberos, IPsec

Wireless Network Security

WEP 64/128 bit, WPA-PSK (TKIP/AES), WPA2-PSK (TKIP/AES), WPA3-SAE (AES) (Wi-Fi Direct supports WPA2-PSK (AES) only)

Wireless Certification

Wi-Fi CERTIFIED, WPA3-Enterprise/Personal, Wi-Fi Protected Setup, Wi-Fi Direct

Computer Requirements Specifications

Supported Operating Systems And Software Functions

Computer Platform & Operating System Version		Computer Interface			Processor	Hard Disk Space to Install ¹	
		USB ²	Wired LAN	Wireless LAN		For Drivers	For Applications (including Drivers)
Windows Operating System	Windows 10 Home / 10 Pro / 10 Education / 10 Enterprise ^{3 4}	Printing PC Fax ⁵ Scanning			32 bit (x86) or 64 bit (x64) processor	80 MB	2.0 GB
	Windows 11 Home / 11 Pro / 11 Education / 11 Enterprise ^{3 4}				64 bit (x64) processor		
	Windows Server 2016	Printing Scanning	Printing		64 bit (x64) processor	80 MB	80 MB
	Windows Server 2019						
	Windows Server 2022						
Mac Operating System ⁶	macOS v13	Printing PC Fax (Send) ⁵ Scanning			64bit processor	N/A	500 MB
	macOS v14						
	macOS v15						
ChromeOS™		Printing Scanning			N/A	N/A	N/A
Linux (Supported Package Management System: dpkg, rpm) ⁷		Printing PC Fax (Send) ⁵ Scanning			32bit (x86) or 64bit (x64) processor	20 MB	20 MB

¹ An Internet connection is required to install the software.

² Third party USB ports are not supported.

³ For WIA, 1200x1200 resolution.

⁴ PaperPort™ 14SE supports Windows 10 and Windows 11.

⁵ PC Fax supports black and white only.

⁶ macOS Disclaimer

AirPrint capable: Printing, scanning, or PC faxing (Send) via macOS requires the use of AirPrint. Mac drivers are not provided for this machine.

⁷ The driver is known to work on the following Linux Distributions:

Red Hat Enterprise Linux 8.6 64bit, Red Hat Enterprise Linux 9.1 64bit, Fedora 39 64bit, Mageia 9 32bit, Mageia 9 64bit, openSUSE 15.5 64bit, SUSE Enterprise15-SP4 64bit, Debian 12.2.0 32bit, Debian 12.2.0 64bit, Ubuntu MATE 18.04 32bit, Ubuntu 22.04 64bit, Ubuntu 23.10 64bit, Linux Mint 21.2 64bit, Ubuntu 24.04 64bit.

For the latest driver updates, go to your model's **Downloads** page at support.brother.com/downloads.

For the latest supported OS, go to your model's **Supported OS** page at support.brother.com/os.

Important Information About Toner Cartridge Life

Toner Cartridge Life

This product detects the life of the toner cartridges using the following two methods:

- Detection by counting the dots of each colour that are necessary to create an image
- Detection by counting the rotations of the developer roller

The print operation will stop when either of the upper limits is reached. The upper limit is set above the number of dots or rotations that would be required for the cartridge to perform consistently with its advertised page yield. This function is intended to reduce the risk of poor print quality and damage to the machine.

There are two messages that indicate when the toner is low or needs replacing: Toner Low and Replace Toner.

Toner Low is displayed on the LCD when the number of dots or rotations of the developer roller nears its maximum count. Replace Toner is displayed on the LCD when the number of dots or rotations of the developer roller reaches its maximum count.

Colour Correction

The number of developer roller rotations that is counted may not only be for normal operations, such as printing and copying, but also for machine adjustments, such as Colour Calibration and Colour Registration.

Colour Calibration (Adjustment of Colour Density)

To obtain stable print quality, the density of each toner cartridge needs to be maintained at a fixed value. If the density balance between the colours cannot be kept, the tint becomes unstable, and accurate colour reproduction becomes impossible. The toner density can change due to chemical changes to the toner that affect its electrical charge, deterioration of the developer unit, and temperature and humidity levels in the machine. During calibration, the density level adjustment test patterns are printed on the belt unit.

Calibration is mainly performed at the following times:

- When you start the Colour Correction from the control panel to improve the colour density.
- When you replace a used toner cartridge or drum unit with a new one.
- When the machine detects that the ambient temperature and humidity have changed.
- When a specified number of printed pages is reached.

Colour Registration (Correction of Colour Position)

In this machine, the drum unit and developer unit are prepared for black (K), yellow (Y), magenta (M), and cyan (C), respectively. Four colour images are combined into one image, and therefore colour registration errors (for example, how the four colour images align) may occur. When registration errors occur, registration correction test patterns are printed on the belt unit.

Registration is mainly performed at the following times:

- When you start the Colour Correction to clear the colour registration error.
- When a specified number of printed pages is reached.

Environmental and Compliance Information

- [Information Regarding Recycled Paper](#)
- [Availability of Service Parts](#)
- [Chemical Substances \(EU REACH\)](#)

Information Regarding Recycled Paper

- Recycled paper is of the same quality as paper made from original forest sources. Standards governing modern recycled paper ensure that it meets the highest quality requirements for different printing processes. The imaging equipment supplied by Brother is suitable for using with recycled paper meeting the EN 12281:2002 standard.
- Purchasing recycled paper saves natural resources and promotes the circular economy. Paper is made using cellulose fibres from wood. Collecting and recycling paper extends the life of fibres over multiple life cycles, making the best use of the resources.
- The recycled paper production process is shorter. The fibres have already been processed, so less water and energy, and fewer chemicals are used.
- Paper recycling has the benefit of saving carbon by diverting paper products from alternative disposal routes such as landfill and incineration. Landfill waste emits methane gas, which has a powerful greenhouse effect.
